Thread: [My 2FA device died,how can I change 2FA here?](#)

**SIM-3587630** - September 4, 2018, 4:21 am

So,my 2FA device literally died,and with it all the google auth codes,HF one aswell.  
I'm still logged on my HF account,how can I change 2FA device?  
I no longer have access to the old 2FA device in ANY way.

thx in advance

Also why don't you use Authy?

<https://authy.com/>

Depending on what 2FA app you used, there might be a way to recover everything. Aside from that there's a recovery key that HF shows you when you enable 2FA.

Since you're logged in you can also clear/reset the code [here](#).

In the future, try out Authy, it is great for these situations, and you can also login via PC to get your codes.
