Its easy you just have to be close to 21 but not over 21. If the dealer exceeds 21 then you win and if you exceed 21 then dealer win. Try to google for more information.

Well with blackjack now added you may have to join HFGA (HackForums Gamblers Anonymous) this said he talk so much about gambling you will either find yourself playing slots/blackjack more or turning to something less addictive such as drugs.

Not true sir, not, true.

You can win a nice sum playing slots, the hard part is stopping yourself. Then you hit the 40 dead rolls wall and mess everything up. Happens everytime. Keep your bytes until a better game comes out, that wasn't designed to make you lose.
