Thread: [Make \\$500+ A Month Game/VPS Hosting Site With Dedicated VPS](#)

Oh Host Yeah Bud - September 4, 2018, 11:21 am

Hello Hack Forum members today I am selling my game hosting/ VPS company. I am venturing into a new business and simply do not have time anymore to manage both. What exactly is being offered

- *Website with domain (Website is hosted on Linux VPS that will also be included in deal. VPS is in a 1 year contract and has 6 months left in the contract. All is pre paid for.)

- *Hosting panel site which is using the pterodactyl panel. (Also being hosted off the Linux VPS)

- *Custom eggs for games. (PM for list of games available for hosting)

- *TeamsSpeak Commercial license

- *WHMCS license (included are plugins for reselling any VPS of your choice from Linux to Windows. Paid \$150 for the plug-in and \$100 for the starting price of the provider.)

- *2 Vps for hosting both are in a 1 year contract with 6 months remaining. When contract is up you will have to start paying or find a new Vps provider. 1 Windows 2016 server 16 cores 40gb ram 2tb hard drive 500gb SSD 10gb unmetered bandwidth.

1 Linux server on ubuntu 18 4 core 16gb ram 1tb hard drive. 10gb unmetered bandwidth.

- *200+ active customer

With managing all services this makes me ruffly \$500 a month. I am looking for offers around \$500 I know im loosing someone on this deal but I have made back all that I have invested into this company I just need the extra capital to start my new business. If you have any questions or want to see statistics send me a PM. With the right seo can see this company grow to \$2,000+ a month.

Seeking \$500 obo. No Low Ballers. Im not in a rush to sell. Only accepting BTC and willing to use middleman.

Also forgot to mention that who ever purchases will get me help when I am around to set up new eggs on the panel for games and help with anything I can help with. If anyone has a question send me a pm.

Oh Host Yeah Bud - September 10, 2018, 10:04 pm

Still for sale. If anyone is interested just send me a pm.
