Thread: [White hat batch scripts??](#)

**LuckyOnes** - September 4, 2018, 7:41 pm

Hello all!

I'm a grey hat and wanting to know if there is any "white hat" batch scripts to extend my knowledge of creating batch scripts as it's one of my favorite ways to code.

All suggestions are highly appreciated

Happy Hacking, LuckyOnes

Like something I could do things as a white hat like removing malware. Haven't seen any scripts on it but I was wondering if it was possible
