This is just amazing, you can decide how much you want to make, completely up to you!

So if you are looking for a bot that can make you easy money with a few clicks, this is what you're looking for!

Also you will get your payment in paypal which i really like because you can withdraw right to your bank account!

I can really recommend this, so i'm saying again, if you want to earn ez money, you need to get this!

Am not allowed to post links so here is a stripped version of the link:

This allows you to make side money or hey, maybe even a main income for a time being by just doing NOTHING. Since this takes such little work your able to do other things and make even more. This is 100% unsaturated the way he does things with it and works super efficiently.

I can definitely vouch for this and recommend this to other users.

Immediately after buying I added OP on Skype and chatted with him for about 25 minutes with him showing me how it works and why it's worth the price ect ect..

10/10 vouch for this completely. I got paid out everything went smooth.. Program is just completely super simple and there is no telling how much you can make with this over time. Like other posts have said you'll need to build up to bigger amounts but other than that this is fool proof.

If you have the money to purchase this and want extra cash every week I would defiantly go with this!

It's not some ebook or "private method" either.. it's literally downloading the program and entering some numbers that takes 3 minutes of your time to enter a few numbers and boom wait a day and you can your 20%

(Sep 1, 2018 02:59 PM)undead noob Wrote: [\[CITE\]](#) I purchased the program about a week ago and I can heavily vouch that xjamer is a extremely professional businessman, and above that, a

entrepreneur and a mentor. He took it upon himself to guide me through everything and make sure I knew what to do, he's always easy to get in contact with and responds within a reasonable amount of time.

After getting the bot setup and putting in my first transaction for 100\$ I was pleased to my receive my 100\$ back plus 20% on top of it, all within about 24 hours. I am very pleased to have purchased xjammers program and will be very soon making thousands.

I've also just put in my second 300\$ transaction and should be receiving my money back plus 20% in 1-2 days - [imgur . com/a/kPvqADN](https://imgur.com/a/kPvqADN)

(Sep 2, 2018 12:46 AM)Kash Studios Wrote: [\[CITE\]](#) Honestly you'd have to be out of your mind to believe a program could make you money back plus 20%, but I'd be lying if I said it doesn't work. The method itself isn't hard to grasp at all, however the program makes this 99% auto-pilot unless your lazy ass cant type 3 numbers once a day.

xjamer is extremely generous with his time also, no hesitation to ring me and explain anything I needed, but to be honest support isn't really all that needed other than software related issues, he's made it that easy.

I'm currently only investing 50\$ to saturate my PayPal with transactions before I hit the 250\$ or my goal 500\$ per try. I will post updates as I go a long however even without trying the method you'd see how reliable it is and I have no doubt I will get my money back + profit for the rest of my time with the program.

Don't hold out, this isn't bullshit.

(Sep 2, 2018 12:54 PM)·Lawliet· Wrote: [\[CITE\]](#) Only method that can get you easiest \$\$\$ on the forum. And I have bought many.

Its designed for lazy people, it isn't an ebook you have to read or deep knowledge you have to understand. You literally can start making money and easily make your investment back the first week (even more than that).

But to be honest, the support he provides is outstanding, he will 1:1 you all the way and set you up completely.

He even wen't forward and sent the first investment from his funds on my behalf so I know how it works, he is confident that I will be able to pay back simply because it works. If that wasn't enough, he hinted me a second method to start making money based on my location.

I can say I took my chance with this, and glad I did.

So we are trading btc for pp threw your program and make profit wich is against pp's tos. Do you provide a bulletproof method to be safe when used with a legit pp or do we have to stick with a stealth one?

Also, how could you safely avoid chargebacks when dealing with random ppl ?

Yes, it is against tos, however, to bypass this each transaction comes with a fake tracking number some even say thanks for the logo design etc. Yes, I do provide the method. I still recommend to use stealth but I have done 9k through my main with no issues. So the bot handles cb if you get CB you let it go through and the bot will send you another transaction to make up for it. I got CB once for 30 usd after I did 6k through my bot. CB is very very rare and doesn't happen, no one who has got my 20% has gotten a CB yet. It doesn't happen but I have added safety for it.

Now talking about this product, i must say till now is working as expected.

HUGE AND I MEAN HUGE VOUCH FOR xjamer!!!

Showed me 1on1 in details how the whole process works and why it works. Real simple method, the type that sounds 'Too good to be true' but it turns out to be absolutely true.

Not to mention that xjamer invested some of his own money for me that will be paid out to me just to show me it works as I couldn't deposit at the time. What more can I say other than xjamer is the most legit seller I have seen on here.. Thanks buddy :) :)

How exact do you earn money from this? Do you get every day 8% of 30\$ or what?

IAmDaniel - September 12, 2018, 3:53 am

This is the most obvious ponzi scheme ever.

You will eventually loose the money you paid to enter the service, loose the BTC you invest and you will get chargebacked your paypal

Who ever trust this user with this has 0 IQ

Go type ponzi schemes in google and you will see how this work

If this was paying 20% everyday this user should have made hundred of thousand of dollars for 6 months not some funny 10k

I don't know about that. I think its real I just dont see how you can make such a profit. Since you convert bitcoins to paypal but how do you convert it back to bitcoins 1:1?? Unless you use a service which requires verification.

You do need a card + verification for the 1:1 method

You registered 3 days ago and only see you posting shit in everyones thread without enough proofs of what you speaking.

ITS NOT 20% everyday, and you can't trade whatever amount you want. Even OP alert customers about this to not lose your money when exchange.

So you should reading too before posting, cause it seems you are not doing it.

Its not a ponzi scheme u can't get paid out daily and there are amount limits, once you buy method or learn what it is you will see why it works. Its pretty unique and simple to do if you understand it. As the money never goes to me that you invest at all and all the users can attest to it, its simple but limited due to a few reasons like paypal and the amount that you can put into it.

Trust me, I told xjamer I was in debt and needed to make some money. He told me this is probably one of the only methods on HF where I'll earn and he wasn't wrong. This goes for anyone who wants to buy this method.

Secondly, you CAN scale this. You can scale this from 50\$ a day to a hefty 1000\$ a day which is where I'm at, I'm here. I'm your proof this shit works. As long as you know what you're doing of course, don't post shit on stuff you don't know because the grass is definitely greener this side. Try it out for yourself if you want to earn some proper money.

Here are my earnings since the 3rd of September, as you can see the scale up was ridiculous. Even he was telling me to be careful, but again I know I can handle this amount. My earnings are below and in GBP, exchange it into USD.

It's quite simple basically you get 15% extra on your investment in 1 - 3 days. You put through ur btc and get paid in PayPal. The company that this tool sells to sells goods and services to clients and invest heavily in bitcoin the lower BTC is the better. For example, even 15% users are getting 25% today and 20% all this week. So if you invest say 500 usd at 20% u get back 600 usd with 100 usd profit.

Review:

Lol. I swear all methods I have encountered on HF are literally trash. I lost a lot of money on HF

with skids that pretend they are making a lot of money.

Xjamer's profit maker is really what the title is. He is shitting on a lot of people's methods. He's found a gold mine fr fr. This is profit maker is so mindless a cave man can do it.

Xjamer was really cool explaining me the whole works. He did it twice lol. He's really passionate in his work and proud of his profit maker. He knows what he is doing. He is beyond helpful. He wants the best for his costumers. We are like a little community. I'm even afraid weirdos would saturate the community he created (not the method).

Here's a little bit of earnings. I even hit 149.99 all in one shot. That was my biggest payment... Still making money. Like I said earlier. Methods on HF are trash. This works. Don't sleep on it.

Lol. I swear all methods I have encountered on HF are literally trash. I lost a lot of money on HF with skids that pretend they are making a lot of money.

Xjamer's profit maker is really what the title is. He is shitting on a lot of people's methods. He's found a gold mine fr fr. This is profit maker is so mindless a cave man can do it.

Xjamer was really cool explaining me the whole works. He did it twice lol. He's really passionate in his work and proud of his profit maker. He knows what he is doing. He is beyond helpful. He wants the best for his costumers. We are like a little community. I'm even afraid weirdos would saturate the community he created (not the method).

Here's a little bit of earnings. I even hit 149.99 all in one shot. That was my biggest payment... Still making money. Like I said earlier. Methods on HF are trash. This works. Don't sleep on it.

Thanks a ton, bro I really appreciate it and glad you like it :)

What caught my eye about this product is that it was “different” from the typical HF money method. It was not an ebook and it was not a 1 on 1 tutorial. It was a program. To me, it seemed too good to be true. But after using it, I found it easy to use and it makes me anywhere from \$50 to \$100 a day. Basically, you put in Bitcoin and get PayPal back. The process is very straightforward and OP is great with support. I can always count on him to respond in a timely fashion and answer any and all of my questions. Prior to purchase, he gave me the opportunity to talk to and question others who were also using his program. OP is transparent about his product and hides nothing. He does not promise “\$3000 A MONTH!” but it really does seem possible from what I have experienced. When it comes to payouts, they are often speedy (<48h) and OP included a transaction checker within his program. Overall, I am very satisfied with my purchase and have never made my investment back quicker using another method. Please feel free to message me any questions. Proof of earnings are below.

There's more but I think those four screenshots do justice.

And, as said above, Xjamer turned his user base into a little community. It's awesome being part of a group of people who are as motivated to make money as you are.
