Thread: [CS:GO Cheat that bypasses FaceIT Anti-Cheat](#)

RunDMC - September 8, 2018, 5:31 pm

Is there any current cheats out there that Supports/Bypasses FaceIT Anti Cheat Client?

Project-7 Says they bypass both ESEA & Faceit AC. Can't see how that would be true. As i've seen Project 7 since CSS back 10 years ago. And it always used to get detected all the time.

Best of regards. ?

There are a few legit sellers on d3scene (mods lmk if we can't talk about other forums but it's just facts). Most of them are hardware based using a card that reads/writes memory.

/shrugs.
