Thread: [Default wifi password for Huawei B618 router?](#)

tohzixu - September 10, 2018, 1:43 am

What is the default wifi password?

Is it 8 digits?

.Reef - September 10, 2018, 1:56 am

Disregard I see you said wifi password

based on this article, the default username: admin and password: admin

<https://www.mweb.co.za/Portals/29/Skins/MWEB-2016/pdf/Huawei-B618-LTE%E2%80%93A-Router-guide.pdf>

tohzixu - September 10, 2018, 2:02 am

Then is it impossible to crack the default password?

All Huawei B618 router has the same wifi password?

TygerTung - March 3, 2024, 1:45 am

It would be possible, but take too long to brute force every combination of an 11 digit password with upper case letters and numbers. Probably 90 years on a Nvidia M4000 for example.

You didn't seriously just answer a question from 2018. This is why we need to have old threads automatically close.
