How fast the Runescape module is and are you using the main or company url? Cheers!

#Skyline - September 11, 2018, 8:46 am

(Sep 11, 2018 08:32 AM)Villezzai Wrote: [\[CITE\]](#) How fast the Runescape module is and are you using the main or company url? Cheers!

The Runescape module can run unlimited threads and is just dependent on the power of your PC or server, so "how fast it is" really is only limited by your setup.

We are currently using www.runescape.com as the URL.

Hope this helps.

Only 1 vouch copy left, please post below if interested(Ub3r/R00t ony).

Villezzai - September 11, 2018, 8:56 am

It depends on the proxies then because the recaptcha shows up after 2 tries. Thanks tho!

Also Dropbox requires email access if you want into the account. The same thing on most Twitter & IG accounts, please correct me if I'm wrong.

traveling-monk - September 11, 2018, 9:00 am

Hi Villezzai,

correct we cover this in the guide it comes down to the number of proxies as well for example it would be silly to run 1000 threads with 100 proxies! a feature included in the bot is to be able to add a wait time per thread per attempt this is good if you are limited on proxies.

A proxy checker is also built into the software, we will be adding a proxy scraper as well.

I hope that helps.

Villezzai - September 11, 2018, 9:07 am

You can't run many combos with scraped proxies for sure on Runescape. I have made Runescape config for Sentry MBA using the same URL and ran it with backconnect proxies (new ip on every request) and I'm still able to run less than 10k combos before I have to wait for the proxies to get unbanned. If you want to improve your Runescape module, you should use this URL: <http://www.runescape.com/companion/comapp.ws> - It's hard as fuck to make tho unless you use Chrome Driver.

traveling-monk - September 11, 2018, 9:10 am

About needing email accounts i am not if you mean you need an email as a username or that Dropbox and IG etc flag attempts and ask you to confirm you own the account with an email

So YES it does happen (asking to confirm email) however every attempt uses a unique fingerprint and by using a good proxy provider (stay away from public) the % of accounts this happens to is lowed.. also the software will only save accounts that it gained full access to.

When you buy the software i am here to help you every step of the way.. and the new video coming soon with give you great pointers on how to make sure your success rate is as high as possible.

hope that helps

Villezzai - September 11, 2018, 9:15 am

You will need email access for Dropbox in case you want to get into the account. Of course some people use the same password on their email but it would be a pain in the ass to check them one by one. You should focus on the other Modules, I can help with Minecraft if you want.

Also for Runescape, ill leave this here: http://rsps.wikia.com/wiki/317_Protocol

traveling-monk - September 11, 2018, 9:15 am

Thanks for the message and i hear you about the scraped proxies (public proxies are bad news full stop) it took me a while to find a way to be able to hit Runescape hard even with back connect proxies but we are able to.. as for the url you provided thanks i will check that out in the morning and if it makes sense we will make it an option to choose between urls to go after

Villezzai thank you so much that is of great value and Minecraft has been a problem case for sure! your feedback has been great we want to have modules that people want and any feedback you can give is great!

Villezzai - September 11, 2018, 9:23 am

I don't know how good coder you are but if you succeed to make it using the companion URL (it's hard), you should only focus on Runescape. There is currently only one Runescape cracker around but it's shit and doesn't support backconnect proxies. People would pay a lot for a good one.

Edit: And yes I can help with Minecraft one for a free of charge. Hit me up on Discord or Jabber anytime you want.

Villezzai#0001
villezzai@xmpp.is

traveling-monk - September 11, 2018, 9:29 am

I plan to look into it in the morning if we can crack both URLs (we have one already) then that will be great and i love a challenge so let's see.. and thanks again for the pointers. if you would like a private chat about modules and coding the please add me on skype so we can discuss more.

thanks again Villezzai

Villezzai - September 11, 2018, 9:36 am

Accepted and that's ok, I'll be up all night.

9n8d - September 11, 2018, 10:37 am

Is the RuneScape feature operable at this time? Does this tool come with a proxy scraper? I'm interested specifically for the RuneScape feature. Thanks.

traveling-monk - September 11, 2018, 4:49 pm

The Runescape module is working just fine.

CrackAttack comes with a proxy checker which will check 1. The proxies on your list are working and 2. Are tested against a website of your choice proxies that meet the above criteria are then saved to a file.

a proxy scraper is on the way and part of the expansion plans

#Skyline - September 11, 2018, 5:25 pm

If you have any questions or need support please free to contact me or Markettakeover4u for assistance regarding CrackAttack.

Please keep in mind all of the modules listed within the thread are currently all not implemented. We currently only have Instagram/RS/REDDIT/Megaupload.nz at this current time. Please be patient while we add more modules and fix any bugs.

Bluffer - September 11, 2018, 6:41 pm

Vouch for Skyline, great legit seller.

ohksonny - September 11, 2018, 7:53 pm

does this crack discord accounts?

phunted - September 11, 2018, 7:56 pm

Given I purchase this and put my head to it would I be able to set my account shop up later down

the track?

Alisonjones1320 - September 11, 2018, 7:58 pm

Hey guys, can someone contact or link me to an hacker. I would really appreciate that a lot. Thanks

traveling-monk - September 11, 2018, 8:03 pm

(Sep 11, 2018 07:56 PM)Ol\ Dirty Wrote: [\[CITE\]](#) Given I purchase this and put my head to it would I be able to set my account shop up later down the track?

For sure, the bot runs very well on a dedicated server and I will help you out as much as I can! email me your plans or add me on skype..

thanks.

#Skyline - September 11, 2018, 8:28 pm

(Sep 11, 2018 07:53 PM)ohksonny Wrote: [\[CITE\]](#) does this crack discord accounts?

We can look into adding the module. However, we do not wish to advertise Discord on HF given the rules. I will need more clarification on this.

Thanks for asking.

okay6 - September 11, 2018, 10:25 pm

Can you post some screenshots of the software please?

traveling-monk - September 12, 2018, 12:17 am

UPDATE: Mediafire.com has been added :)

next update coming by the end of play today: Proxy Grabber, right now CrackAttack has a proxy checker to check your own proxies against a website of your choice, however in the next update the bot will grab up to 250,000 proxies and download them, you can then use the list with the proxy checker.. giving you a big list of Proxies to work with..

Watch this space for more sites and modules.. to be added.

#Skyline - September 12, 2018, 2:26 am

(Sep 11, 2018 10:25 PM)okay6 Wrote: [\[CITE\]](#) Can you post some screenshots of the software please?

Sure

traveling-monk - September 12, 2018, 4:19 am

UPDATE: CrackAttack now has a proxy grabber... the bot will grab a list of up to 250,000 proxies and download them to a location of your choice.

Once you have done that you can use the list with the proxy checker (which now can run at 1k threads!) you can check the proxies against the site you wish to use the proxies with, this will make sure you have a lot of working proxies for your projects.

Coming updates: fresh GUI and more sites to work with.

This project as you can see is getting daily updates, all modules are working.

thanks, Guys.

CrackAttack doubles up as a nice proxy downloader and scraper the bot downloads up to 250k proxies and the proxy tester is super fast, you can then export the working proxies to work with CrackAttack OR any Software\Bot that uses proxies.

Judge. - September 12, 2018, 4:51 am

Hi Buddy, thanks for clearing things up, I am a coder and always learning I understand what you mean now.

CrackAttack only captures a successful login as of right now, However, other people have suggested having the bot pick up on what type of account the cracked account is, (standard or premium) and we aim to add this feature to CrackAttack.

thanks.

brianfs - September 13, 2018, 12:25 pm

Is support Yahoo? or in the future will be implemented?

Sanchez Sales - September 13, 2018, 1:01 pm

9/13/2018

Suggestions: Adding combo list rather than, one list users / one list passwords while still also keeping the other options available.

Issues: Not sure on which sites to check the proxies against, may be confusing to users new to the area of proxies grabbing / checking. Maybe add an example to the module?

Issues: False logins>

I've noticed this issue, As it goes through the list, seems to be as long as the proxy connects/ it provides that it was successful login.

Errors: None Atm

(this is a post that will be updated upon use.

traveling-monk - September 13, 2018, 6:19 pm

Hi, Manny thanks for posting! and everyone is entitled to there opinion :)

We are adding new features and new sites all the time, so I hope you will check back at a later date.

thanks.

Karahan - September 14, 2018, 10:47 pm

you should really state how each module etc works in your tool as

1. PSN cannot be cracked unless u implemented a captcha service into tool
2. Does steam capture steamguard as if not gonna be alot of invalid hits as in locked
3. Twitter is gonna ask for verify once u try to login from a different ip location

traveling-monk - September 14, 2018, 11:01 pm

(Sep 14, 2018 10:47 PM)Karahan Wrote: [\[CITE\]](#) you should really state how each module etc works in your tool as

Great post Karahan,

let me answer...

So some sites use Captcha.. some for every login attempt and others based on factors such as the proxy type you are using, i have done 1000's of tests on the sites we have listed will be included in CrackAttack

Now sites like SnapChat only show a captcha a % of the time so for this module, we will include the option to use a captcha service for when one shows this will be optional of course.

Twitter and Xbox Live and Skype i have found it depends once again on proxies and locations used.. using public proxies really is no good for these sites as you quite rightly pointed out they will ask you to verify your phone number, However, using residential or semi/dedi proxies in the same county (at least) has shown good results, of course, this is not full proof and some will get flagged but we have seen good enough results to include them in CrackAttack

As for PSN the team is talking about if we should replace that site for another as you are right you have to provide a captcha every time and it will cost a lot of money if you have just 10 usernames and a password list of 1 million (ouch)

I hope that helps.

Karahan - September 15, 2018, 1:14 am

yes i would consider removing PSN as i doubt you want someone buying the tool just for that and then they sadly finding out it wont actually work. as yes can be expensive to crack. unless u have a very HQ filtered PSN combo. as i know there is a psn checker config floating around that just shows if the email is regisetred to PSN which may help some.

good luck with the project

okay6 - September 15, 2018, 1:45 am

I'm just wondering, so built with BrowserAutomationStudio? Thank you for showing me though.

traveling-monk - September 15, 2018, 1:47 am

(Sep 15, 2018 01:14 AM)Karahan Wrote: [\[CITE\]](#) yes i would consider removing PSN as i doubt you want someone buying the tool just for that and then they sadly finding out it wont actually work. as yes can be expensive to crack. unless u have a very HQ filtered PSN combo. as i know there is a psn checker config floating around that just shows if the email is regisetred to PSN which may help some.

good luck with the project

Thanks for the post, I agree with you 100% I think the module will be shelved in place of a better module, we may add it at the end for people like yourself that understand filtered combo lists etc, but as you agreed it can become costly, so we will leave that module for towards the end of the list of sites we aim to add.

(Sep 15, 2018 01:45 AM)okay6 Wrote: [\[CITE\]](#) I'm just wondering, so built with BrowserAutomationStudio? Thank you for showing me though.

Sorry, I only just saw your message,

The bot has been build with Browser automation studio, JS Node and python (for the new Gui coming soon)

Hope that helps.

Any update on the combolists for the RS checking?

traveling-monk - September 15, 2018, 7:11 am

(Sep 15, 2018 06:40 AM)True Life Wrote: [\[CITE\]](#) Any update on the combolists for the RS checking?

Thanks for the post, I dropped you an email my morning time, the false positive issue has been fixed, as for a combo list I think we are going to keep the format the same for now, I am spending time adding new sites, However having the option to choice between username\password list OR 1 combo list will be added to CrackAttack at some point soon. I will keep you updated via email on the matter.

We will be providing links to big password lists for people that need them

thanks.

Sanchez Sales - September 15, 2018, 7:32 am

Reason I'm asking about the user:pass combo list, Is because that is the majority of what I have over the past few years, So I'm targeting specific lists rather than like random checks. Thank you for the update.

traveling-monk - September 15, 2018, 7:39 am

(Sep 15, 2018 07:32 AM)True Life Wrote: [\[CITE\]](#) Reason I'm asking about the user:pass combo list, Is because that is the majority of what I have over the past few years, So I'm targeting specific lists rather than like random checks. Thank you for the update.

Yes, I see your point, the add-on (for combo list format) is days away not weeks or months, and I will keep you updated every step of the way. :)

thanks.

General Relativity - September 15, 2018, 8:03 am

Hiya! I purchased a month's worth of access and have not had delivery occur to my email. The unpaid invoice was mailed, and I have confirmation, but no delivery.

Edit #1: Received a PM from #Skyline. Awaiting his partner to come online to be given access to Crack Attack. Will post a review shortly.

traveling-monk - September 15, 2018, 5:00 pm

Hi Buddy,

I have sent the information to you via PM and via email.

Looking forward to hearing your feedback.

#Skyline - September 15, 2018, 5:45 pm

More modules being added. The client will update automatically once new modules have been added, which has been everyday so far.

traveling-monk - September 16, 2018, 3:32 am

UPDATE:

1. When using public proxies bad ones are removed if they fail.
2. Runescape False positives error with public proxies is fixed
3. Big speed improvement I ran 1200 threads today!

Now just a tip: if you are serious about cracking accounts then you should invest in some proxies, be it dedicated, Semi-dedicated or back connect.

Public proxies are ok to test CrackAttack and get used to the setup but there are VERY slow and prone to fail, not only that they cause Captcha to show a HUGE percentage of the time.

We are here for you every step of the way and when you Buy CrackAttack I am here 15 hours a day to make sure you get the results you are after but as i say to really get great results you need to invest in the right tools, and proxies are a must.

Looking forward to helping you get results :)

#Skyline - September 16, 2018, 8:11 am

New updates are automatically downloaded when accessing our client.

Contact either myself or markettakeover4u for questions and support and we will assist you.

traveling-monk - September 17, 2018, 2:33 am

UPDATE:

1. Added the use of back-connect proxies (there was an issue with using them before)
2. A bigger list of auto proxies downloaded for testing up to 300k a time.
3. Even faster proxy checking speeds

new sites being added today.

enjoy your cracking guys... any questions just ask :)

brianfs - September 17, 2018, 3:37 am

I want to know if you will add yahoo. Because I need yahoo. Thank you very much. or in the future you will implement paypal?

traveling-monk - September 17, 2018, 5:25 am

Thanks for the post... we are going to drop the PSN module for now and replace it with Yahoo and a bonus module.

The reason being is that PSN always shows a Captcha and let's just say you have 100 usernames and a password list of 100,000 or a lot more, then this is just not going to be cost effective.

So, for now, PSN is at the back of the queue.

thanks.

RamenField - September 17, 2018, 7:48 am

Why not just implement so that you can enter your API

s from either anti-captcha , 2captcha Rucaptcha etc.. In any case, good luck with sales. ?

Money- - September 17, 2018, 7:51 am

Does this comes with a daily fresh combo list for checking?

traveling-monk - September 17, 2018, 7:51 am

(Sep 17, 2018 07:48 AM)Kawaki Wrote: [\[CITE\]](#) Why not just implement so that you can enter your API

s from either anti-captcha , 2captcha Rucaptcha etc.. In any case, good luck with sales. ?

That was the point i was making the cost for 2 captchas is around \$2.99 per 1000's attempts so if you do the maths of only 100 usernames or let's say even 1 username but with 100k passwords to try or even more....

Mastif - September 17, 2018, 7:53 am

Hey bud, so is this a general cracker that tries to get loads of accounts? Or is this a cracker that tries to crack 1 specific account?

#Skyline - September 17, 2018, 8:00 am

(Sep 17, 2018 07:51 AM)Money- Wrote: [\[CITE\]](#) Does this comes with a daily fresh combo list for checking?

We provide a combo list. But not daily sorry.

(Sep 17, 2018 07:53 AM)Mastif Wrote: [\[CITE\]](#) Hey bud, so is this a general cracker that tries to get loads of accounts? Or is this a cracker that tries to crack 1 specific account?

It can do both.

RamenField - September 17, 2018, 8:53 am

(Sep 17, 2018 07:51 AM)markettakeover4u Wrote: [\[CITE\]](#) That was the point i was making the cost for 2 captchas is around \$2.99 per 1000's attempts so if you do the maths of only 100 usernames or let's say even 1 username but with 100k passwords to try or even more....

Well there are people who want to make more than 1\$ per acc. Sure you may have to invest a few more dollars but the end results are still about profiting isnt it? That's what I imagine when I think of a cracker. Anyway it's fine I was just asking. ?

traveling-monk - September 17, 2018, 8:58 am

Well, let's take 1 username and a password list of 100k and you find the correct password at line 60,000 that's 60k attempts at \$2-3 per 1,000 attempts.

Hence why we are using sites that we have a captcha bypass for, or do not show captcha, or only show them after xx attempts.

hope that helps.

Mastif - September 17, 2018, 10:11 am

Do you happen to run a cracking service haha?

I'm literally after access to 1 instagram account!

TheBeast7x - September 17, 2018, 4:28 pm

bro i need an runescape checker but you shop is down how i get it

So sorry for my type. I just want to know when you will implement Yahoo. I just read again your post and I see you accept paypal payment. Thank you!

TheBeast7x - September 19, 2018, 11:37 am

bro i wait to get my log in i have pay you

Og Dream - September 19, 2018, 5:22 pm

What exactly does this product do for Runescape?

traveling-monk - September 19, 2018, 9:12 pm

It gains access to accounts by brute forcing.. so to keep it simple it tries different combinations of usernames and passwords if there is a successful combination it logs the account.

hope that helps

Manny - September 19, 2018, 9:23 pm

if I know like a runescape username I want to hack into, can I put that in and get the password?

#Skyline - September 19, 2018, 11:55 pm

(Sep 19, 2018 09:23 PM)Manny Wrote: [\[CITE\]](#) if I know like a runescape username I want to hack into, can I put that in and get the password?

Yes you can. Just make sure you're using a password list. As the program will proceed to use all passwords within the list.txt file.

traveling-monk - September 20, 2018, 7:30 pm

correct exactly how it works make sure you have a good password list

#Skyline - September 21, 2018, 5:06 am

If you have any questions or need support please feel free to contact myself or markettakeover4u for assistance.

More updates will be annouced soon.

wtf - September 21, 2018, 7:26 am

If you use the instagram module will the instagram accounts lock after cracking them?

This is the problem i encounter with other crackers.

Hi there,

the combo lists are some of the best online, put together over time you can also add to them of course.

As for an account has been cracked before that is out of our control it depends of course on the email\usernames you are trying to crack.

I guess percentage maybe cracked before but this will be a small percentage.

hope that helps.

stackerofwheat - September 28, 2018, 9:45 pm

No system requirements or specifications mentioned anywhere. As far as I can tell, this will not run on Mac OS. People are paying for a product they will never even be able to use!

#Skyline - September 28, 2018, 10:00 pm

I have 15 bucks u can accept it? I can test this program

SpeedWolf - October 2, 2018, 3:37 pm

How does the Roblox cracker work exactly?

Just wondering, since it's the only useful thing I can see on the list...

Can it crack email:pass and user:pass from already made combos...

Also, what does the cracker capture on a successful attempt, like does it capture Builder Club Subscription, Robux, etc? (For Roblox)

#Skyline - October 2, 2018, 5:19 pm

Yes.

Yes it can crack both.

It caputres the account but can look into adding more details.

snapchat cracker ready?

and does it need captcha \$\$?

traveling-monk - October 12, 2018, 3:57 pm

(Oct 12, 2018 03:35 PM)Taehyung Wrote: [\[CITE\]](#) snapchat cracker ready?

and does it need captcha \$\$?

No Snapchat right now you don't need Captcha as it stands, there is a video being made for presales... there is already one for buyers that shows you how to use the software.

#Skyline - October 13, 2018, 5:14 pm

Please let us know if you have any questions regarding CrackAttack.

traveling-monk - October 14, 2018, 1:44 am

Great update coming thanks to all the people that have brought so far expect an email soon :)

Xzedin - October 14, 2018, 8:04 am

As most of us know, PSN cracking is dead. So, is your PSN module working, what Captcha service does it use?

traveling-monk - October 14, 2018, 4:38 pm

(Oct 14, 2018 08:04 AM)Xzedin Wrote: [\[CITE\]](#) As most of us know, PSN cracking is dead. So, is your PSN module working, what Captcha service does it use?

Hi there,

Great question i agree PSN cracking is not the time, and is not included in CrackAttack.

#Skyline - October 14, 2018, 8:57 pm

We are currently doing development on our licensing to fix afew things.

Please let use know if you have any questions or need any assistance.

Xzedin - October 14, 2018, 10:19 pm

(Oct 14, 2018 04:38 PM)markettakeover4u Wrote: [\[CITE\]](#) Hi there,

Great question i agree PSN cracking is not the time, and is not included in CrackAttack.

Alright, I suggest you guys update your modules on the Rocketr page as to which are working and which are not.

traveling-monk - October 15, 2018, 2:11 am

There is a new update coming shortly all modules we have work right now.. and more are to come. :)

trololol95 - October 15, 2018, 7:57 am

(Oct 15, 2018 02:11 AM)markettakeover4u Wrote: [\[CITE\]](#) There is a new update coming shortly all modules we have work right now.. and more are to come. :)

Is every module in the update?

And there isnt a option for paying with zcash ?

God-Zeus - October 15, 2018, 11:16 am

So what modules are working at the moment?

#Skyline - October 15, 2018, 6:32 pm

(Oct 15, 2018 07:57 AM)trololol95 Wrote: [\[CITE\]](#) Is every module in the update?

And there isnt a option for paying with zcash ?

Our GFX is outdated. GFX editor is working on fixing it currently.

And not every module we advertise right now works. Only Instagram, Runescape, Mediafire, Media.nz, Megaupload, Netflix and Reddit work at this current time, which we apologise for.

We are working on fixing the other modules. And removing modules which do not work like (PSN/xbox/Snapchat/Steam). Still looking to add Skype/Twitch.

I can accept Zcash manually, however Rocketr doesn't accept Zcash at this time.

(Oct 15, 2018 11:16 AM)God-Zeus Wrote: [\[CITE\]](#) So what modules are working at the moment? Above.

traveling-monk - October 16, 2018, 7:40 pm

Thanks to all the buyers so far... check your email soon for the next juicy update! :) all modules are work and new ones coming!

Let us know what you would like to see added to crack attack always looking to improve our tools.

jbusiness - November 19, 2018, 3:45 am

May I ask, what is the average speed of the tool? CPM?

traveling-monk - November 19, 2018, 4:43 am

(Nov 19, 2018 04:45 AM)jbusiness Wrote: [\[CITE\]](#) May I ask, what is the average speed of the tool? CPM?

Great question, this is only limited by the power of the computer or server you are running Crack Attack on, on a dedicated server you can run 2000 threads easy and depending on your settings this equals a HUGE CPM sorry i am not giving exact numbers it depends on your setup.

MikeHunt2016 - November 19, 2018, 2:58 pm

For the guys who created this.....

ev0 - November 23, 2018, 8:50 pm

RIP OP's sale graphic fooled me. This does not support the websites I want. It's a shame you can't take the time to edit the rocketr page.

Marketing - December 3, 2018, 6:53 am

I have purchased this and quite frankly I want to be refunded

View this GIF:

<https://gyazo.com/d8c38e68813225c28859886df1726fc6>

As shown you can see there are not all the services as provided on the thread, so the service I'm looking for isn't even on there.

This was very misleading and based on the seller(s) reputation, I would have thought this would have been the product I was looking for, and not false advertised.

I'm actually butthurt about it honestly, just because how misleading this product is..

#Skyline - December 3, 2018, 11:34 am

Is it possible to bruteforce phone numbers or emails on facebook, ig, twitter?

#Skyline - February 16, 2019, 9:43 pm

(Feb 16, 2019 12:34 PM)Hetairoi Wrote: [\[CITE\]](#) Is it possible to bruteforce phone numbers or emails on facebook, ig, twitter?

Yes it is possible to bruteforce with this software. You can do this with Instagram, however we do not have a Facebook or Twitter module.
