Thread: [SCAMMED BY RIYU FOR 40\\$ PSN \(UID: 3129680\)](#)

Danskeren - September 12, 2018, 1:32 pm

Riyu just scammed me for 40\$ psn for 72% btc, never been paid yet. Please deal with caution or you will end up the same way as me. I am so sad right now :(

His profile <https://hackforums.net/member.php?action=profile&uid=3129680>

I hope you guys will support me and get him banned from HF.
Thanks!

allesbaba - September 12, 2018, 1:37 pm

Weird... I've sold him tons of psns, probably he's just messing or something. We will pay you

You should always start a contract with a member before proceeding with any deals, since there was no contract involved for this "deal" i doubt they will do anything about it.

The exact same complaint was made the other day about the user unfortunately, based around the PSN code not working.

Hope it gets resolved.

Riyu - September 12, 2018, 2:05 pm

This

1. I paid him already.
2. I've bought like \$5k worth of codes from him lol
3. I was in school and was fucking with him.

He does this a lot lol

Seems like this has been resolved. @OP, don't make deal disputes if you didn't use contracts.
