Fetch Rewards ~ turn grocery receipts into rewards

I was casually browsing the internet yesterday and came across this promotional offer this app was doing for 9/11 to earn 3K points upon signing up and submitting a receipt. If you aren't familiar (3K points is equal to \$3.00 so if you simply signed up and submitted a receipt from the past 3 days, you earn at least a \$3 gift card to wherever you want).

Of course, I thought it was too good to be true and I wasn't incorrect. Upon signing up, I submitted a variety of receipts alongside most which weren't receipts but in the last 14 days and earned 8,000 points easily.

I've redeemed both a \$5 and \$3 Amazon GC & applied it to my balance.

Since the 3K point offer is no longer extended, you can still earn 2,000 points which you can easily rack up more by submitting more receipts and referring your friends/family/etc. ~

Anyways, sign up and use my referral code unless you don't want the bonus 2K points which I'm sure would be very helpful:

RF5XE

App Store: <https://itunes.apple.com/app/id1182474649>

Google Play:

<https://play.google.com/store/apps/details?id=com.fetchrewards.fetchrewards.hop&hl=en>

Important Tips: Enter my referral code upon sign-up to receive the 2,000 point bonus when you submit your first receipt: RF5XE

To earn more, refer each of your friends with your own referral code

It's best if you submit receipts from retail stores since that's where most people do their shopping

Make sure the receipts aren't a year old. As long as it's dated sometime this month, it should be eligible :))

If you have any issues, make sure to reach out to support: they're very quick at responding, very friendly too.
