The ebook is straightforward and the grammar is good so it's very easy to understand the steps. I've never seen this method before and it sure does look like it can make you some money.

It will take a few days before you start making money and it's not some fantasy amounts that can be made but a few hundred bucks monthly shouldn't be a problem.

For the price of this ebook I can definitely recommend it. I rate the method 7/10. (Sep 14, 2018 05:43 AM)Szymek Wrote: [\[CITE\]](#) OP gave me a vouch copy of his product.

First of all, the method is whitehat, legit and it truly does not involve eWhoring, Dropshipping etc. as stated in OP's thread design.

You will need some time to setup it, you probably won't see money after 2 minutes you've set it up, but once it starts, you can make some good money out of this.

Talking about the ebook structure, it's well written and there are many links/pictures to make it easier.

You do not need any investment to make this work, if you want to speed it up you can spend a few bucks, but it's absolutely not needed.

Overall, the price for the method is pretty good, it's well written, whitehat & no bs whoring, betting etc..

This method definitely makes money

000 - September 19, 2018, 3:07 am

I had received a vouch copy of this method and I tested it. Before I start with anything I want everyone to know that this method WORKS without doubt. The first thing I noticed is the good pagination and format, meaning seller spent some time to take care of layout, which is one thing I highly appreciate. I normally don't review ebooks on Hackforums because most of them don't work or are pure copy-paste methods from other people. However I had to see what ProtectNull was offering and I swear there is a huge potential in his method. This method is unlike any other I have seen. I sincerely thank him for the opportunity to review his ebook.

Without any practice it took me about 30 minutes to setup everything. The process is explained STEP by STEP with high precision, meaning it is 100% customer friendly. But after all that, I had to only wait for the traffic to come, no more input from me. I had to invest money in this by purchasing a domain, even though you don't need to. I can guarantee that you can start earning money without investing a single penny. The method is actually very easy to implement yet very powerful if you think out of the box. I am getting small but steady income from his method and the best part is I don't have to work at all!

Here is a 24-hours earning without investing much in the method:

The guide allows you to do exactly what it promises, which is making money. ProtectNull also offers support for people that should have issues. Make sure you buy this and take advantage of it ASAP!

Mazak82 - September 19, 2018, 6:17 am

Received the method. Everything is clear and easy to understand.

The method requires some research on your side and will take some time to get things going but has potential to be profitable.

And no, this has nothing to do with dropshipping nor "insta account methods".
