Thread: [\[CLOSED\] Alpha Private Crypter 01 - PRIVATE CRYPTER FOR \\$30 - ONE CRYPTER = ONE BUYER](#)

Securifier - September 13, 2018, 3:20 am

Alpha Private Crypters

After requests from many customers, AlphaProducts is now selling Private Crypters. They are coded from scratch, and sold to only ONE customer.

Buying a private crypter, you can be sure that your file will not get unFUD because of other crypter users.

You will be the only responsible of your FUD time.

Each crypter comes with a self ReFUD guide, to help you to keep fud as long as possible.

I'm selling refud (stub recode from scratch) for \$20.

Alpha Private 01 - \$30

This crypter is coded in C# and is using .NET reflection.

It is simple, and only based on Fudding your file.

The interface is a command prompt, simple and easy to use.

It is compatible with .NET programs only.

Methods used in this crypter has never been used in a public Alpha stub.

100% FUD Guarantee

When you will get the stub, it will be FUD 0/23.

If it is not, you will get a full refund.

This crypter was created to be sold to only one customer.

It has been sold a long time ago, so it is no more available.

I will close this thread.
