Thread: [Deal Dispute TomCruise UID: 3445001 \\$100 BTC](#)

mvmt - September 13, 2018, 10:04 am

Sales thread: <https://hackforums.net/showthread.php?tid=5878553>

Contract: <https://hackforums.net/contracts.php?action=view&cid=7480>

I paid him \$100 BTC for the Galaxy Skin on Fortnite. I had the skin for about a day, then it got removed. He told me several times he was using his own family's devices, so I contacted EpicGames support to figure out the issue. They sent me a response stating that the skin can only be redeemed once per account, indicating that he redeemed the skin twice from his device or he was using demo devices in the store to run his service.

Told him about the situation and he has ignored me for about 2 weeks now. Even sent him PM's on HF which were ignored.

Sorry for your Loss Apparaenlty scammers are using and manipulating members with famous usernames on the forum..

Next time Use the Trust scan and check the username change History before dealing ..

Thank you for your worthless advice, you clearly did not read the dispute at all.

Seems Valid. Same thing happened to me, luckily seller refunded. Hope he responds and sorts this out.

Rude. This is absolutely good advice.

Tom only posted here because he thought it was about him. The other TomCruise has had the username since February.

The user got what he was paid but it was later removed. I bet neither of them (I hope) saw that coming. So..... His advice is worthless in this scenario.

c0rex - September 14, 2018, 9:11 am

dude... TomCruise is an actor ! not a member on HF !

Wow, 3 users who did not read the fucking thread. The intelligence of this forum never ceases to amaze me.

The "in this scenario" is the important part. Though it wouldnt have helped OP I don't blame Tom C. for wanting to clarify that it wasnt him given that he used to have the username Tom Cruise. For a random person reading this deal dispute, Tom's advice might prevent TomCruise from scamming them.

int - September 14, 2018, 2:03 pm

whatever dude, suit yourself, you are the one that got scammed

TOM - September 15, 2018, 12:54 pm

Dude, I posted that because this is not the first time this happened to someone , if you can take a look at

<https://hackforums.net/showthread.php?tid=5881857>

Someone manipulated Mini, not just me..

How come you say checking the trust scan wont help you to catch scammers well as username changes ?

what kind if a stupid logic you got ?

and Are of course are trying to say that omni made it for fun?

Literally, he made it to prevent someone from getting scammed.

You're so mean, no doubt you got scammed

anyways Fade report is valid according to HF rules since it has a contract and proof, so good luck getting it resolved

Peace

Are you that self-absorbed that you think this report is about someone impersonating you? You guys have 2 completely different usernames, I never thought it was you and checking a trust scan / username changes would not have done anything because this has nothing to do with you, he was not impersonating you.

Please leave my thread if you cannot comprehend what I'm saying.

For two reasons i posted on this thread and viewed it

- 1) I know you for some time, even though you dont remember me . we used to talk on skype
- 2) Due to my previous username

And I just gave you and others my advice just to make sure you deal safely, so checking the trust scan and username changes helps alot in many cases ..
Not just in username Manipulation

Finally

Back on you , please grow up , the advice i gave you has nothing to do with imposing me , its all about you people who getting scammed , so as a prevention warning i left that post so you or another person won't ever get scammed at least 99% chance you will reduce you risk getting scammed by someone who is doing username manipulation + if you check the trust scan it will help you a lot especially to find out if the account is being compromised

so good luck with this report , hope you wont get scam again

That's true but it doesn't help in this case at all.

User had a clean trust scan and his username isn't an issue at all.

I know , but at least someone who reads this thread will get an idea , what im saying and they will know what to do before they make a deal..

as a old member here you do know some people only have time to read threads , but they don't have time to read the [Help Docs](#) .

But later once they get scammed they do blame on staff/ HF - I have seen many threads where omni/ staff replied to and later closed the thread

so i hope my post or posts/ threads made by other members will help them and reduce the risk from them getting scammed in future or present while making a deal on HF ..

So everyone , Either read the Pinned Threads on the sections / [Help Docs](#) - By doing so it will help you alot in many cases

Your advice doesn't apply to me or this situation but okay thanks.

We used a middleman for the deal, I got what I paid for and then it was removed from my account a few days later. Checking a trust scan or username history would not have affected this situation whatsoever

I Read the report, and saw the contract details. you both left B ratings on each other too . this is definitely a legit report no doubt in it

If you think i made the posts to trash your report , please let me know ill remove it .

But that's not my intention, my goal was to make sure others wont get scammed by an imposter, and shared some steps such as checking trust scan help you to reduce the chance of getting scammed by a scammer

As i explained above i just want to make sure others won't get scammed by an imposter under my ex name or under anyone else.

I understand that, but once again this guy I dealt with is not pretending to be you or anyone else.
