Thread: [Stealth pubg {Internal memory hack}{Limited slots available}](#)

buzzynation - September 13, 2018, 11:08 am

Compatibility

Supported Operating Systems (x64):

- Windows 7
- Windows 8
- Windows 8.1
- Windows 10

Supported Servers

- Steam
- Kakao

Extra Information

- Internal Memory Cheat (High Performance)
- Stream Proof (Steam & Kakao)

Features: Level 1 (\$100 USD p/Month)

ESP

Players:

- 2D Box (Draws a 2D box around the players)
- Name (Draws the player's name underneath them)
- Distance (Draws the distance the players are from you)
- Health (Draws the players health)
- Skeleton (Draws the players bones/skeleton)
- Weapon (Draws the name of the weapon the player is holding)

Vehicles:

- Name (Draws the names of vehicles)
- Distance (Draws the distance of vehicles)

ESP Configuration

Players:

- Nearby Warning (Warns you if players are near you)
- Spectator Warning (Warns you if you are being spectated)

- Draw Team Mates (You can draw your team mates/squad members)
- Visible Colors (You can set the ESP colors for visible players)
- Invisible Colors (You can set the ESP colors for occluded players e.g. behind walls)
- Team Colors (You can set the ESP colors for your team mates/squad members)
- Max Distance (Set the max distance for drawable players)
- Max Warning Distance (If players are within this distance you'll get a warning)

Vehicles:

- Text Color (You can set the ESP color for vehicles)
- Max Distance (Set the max draw distance)

Features: Level 2 (\$200 USD p/Month)

Aimbot

Draw Field Of View (This will draw a circle in your screen as field of view)

Visibility Check (Check if the target player is visible else it wont aim)

Aim Key (Select which key will trigger the aimbot to activate)

Bone Selection (Select which bone to aim at, also called Aim Bone)

Field Of View (Limit the aimbot to a certain FoV to appear more legit)

Aim Smoothing (This will humanize the aimbot and make it appear legit)

ESP

Players:

- 2D Box (Draws a 2D box around the players)
- Name (Draws the player's name underneath them)
- Distance (Draws the distance the players are from you)
- Health (Draws the players health)
- Skeleton (Draws the players bones/skeleton)
- Weapon (Draws the name of the weapon the player is holding)

Items:

- Icon (Draws the item icons on the items, so you can find them faster)
- Name (Draws the names of the items)
- Distance (Draws the distance of the items)

Vehicles:

- Name (Draws the names of vehicles)
- Distance (Draws the distance of vehicles)

Packages:

- Name (Draws packages name *look at ESP Configuration*)
- Distance (Draws package distance)

ESP Configuration

Players:

- Nearby Warning (Warns you if players are near you)

- Spectator Warning (Warns you if you are being spectated)
- Draw Team Mates (You can draw your team mates/squad members)
- Visible Colors (You can set the ESP colors for visible players)
- Invisible Colors (You can set the ESP colors for occluded players e.g. behind walls)
- Team Colors (You can set the ESP colors for your team mates/squad members)
- Max Distance (Set the max distance for drawable players)
- Max Warning Distance (If players are within this distance you'll get a warning)

Vehicles:

- Text Color (You can set the ESP color for vehicles)
- Max Distance (Set the max draw distance)

Items:

Packages:

- Loot Crates (Display loot crates from death players)
- Care Packages (Display care packages from airdrops)
- Show Drop Contents (Shows you what's inside the loot/care package when you hover over it with your mouse)
- Text Color (You can set the ESP color for packages)
- Max Distance (The maximum drawable distance for packages)

High Priority List (HPL)

Enable HPL (When you enable HPL only the selected items will be drawn on screen)

Active List (This contains active items in the HPL, only these items will draw)

Inactive List (This contains all the other inactive items)

Miscellaneous

Save/Load Settings (With our profiling system you can save & load your feature settings!)

Panic Hotkey (Once you enable the panic hotkey and press it, it will disable ESP/Aimbot, press the hotkey again to enable them)

Cross Hair (This will draw our famous crosshair on your screen, helping you aim)

Disable Stream Proof (This will disable stream proofing and make our cheat visible on your stream)

Stream Proof

Our PUBG cheat is only stream proof with the LATEST version of OBS.

Please make sure you start the OBS software as ADMINISTRATOR.

Once OBS is started but the menu is still visible in OBS please wait 10 seconds.

If the menu is still visible make sure the option "Capture game overlays" is unchecked in OBS.

GLWS OP :)

We would be the first one to introduce a legit HPL on a pubg cheat.

buzzynation - September 19, 2018, 4:02 am

We now take Skrill as a payment option!

buzzynation - September 22, 2018, 6:16 am
