**Spartacus\_InfOps** - *September 14, 2018, 2:02 pm*

Attention, Warriors! I am from fucking deep state. I just came back from front line. There is a war going on and Anonymous is losing it. We are in a new era and it is advanced warfare. The war is called Information Warfare and I will show you how to fight it. Be warned, once you have been at war you never really come back. I am Spartacus and Rome will tremble.

Any Warriors in here? PM me.
