Thread: [I found a serious bug anyone can upgrade ROOT without 100 reputation](#)

ilovegirls - September 15, 2018, 1:50 pm

Hello admin,

I found a serious bug in your site which fail your system. I found a bug like every and anyone can upgrade ROOT without 100 reputation, and also any one can upgrade to uber instead you closed this upgrade, but there is a trick which is used to get these upgrade, If I sell this bug to any other person then can make hundreds of dollar with it. I will show you each and every proof of bug. But I need bounty for my research.

Thanks

B FOR BADASS - September 15, 2018, 1:55 pm

Pm Omni or any staff member with the info. They will take care of it.

Thanks

ilovegirls - September 15, 2018, 2:01 pm

See this proof

This first image is that system show me that I need 100+ reputation.

<https://ibb.co/f01dCK>

This picture show my reputation which is 11

<https://ibb.co/nwuLRe>

This picture shows that I get access of root upgrade without 100+ reputation

<https://ibb.co/m4CUKz>

This shows that I just need btc to upgrade this

<https://ibb.co/bBrdCK>

I contact omni but they make fun of me..

What you mean by "make fun of me"?

420Cartel - September 15, 2018, 2:04 pm

You're probably changing the URL, right? doesn't matter as I believe these upgrades are manually checked.

grady - September 15, 2018, 2:05 pm

(Sep 15, 2018 02:01 PM)usmarking232 Wrote: [\[CITE\]](#) I contact omni but they make fun of me.. Probably because the payment listener has checks to make sure you actually have 100+ reputation.

The pages you see don't decide how site logic works.

Elitas - September 15, 2018, 2:06 pm

Ub3r upgrade is closed. You can pay money for it, but you won't get it.

I already made Omni aware of that before, he doesn't care. Also are you sure you can upgrade to ROOT without 100 rep? Maybe you won't get the upgrade.

He probably made fun of you for being an idiot. LOL..

ririki - September 15, 2018, 2:24 pm

<https://ibb.co/bBrdCK>

50 BTC ?? hmmmmmmmm

Super - September 15, 2018, 2:25 pm

It depends. Are upgrades automatic, or manually approved?

ririki - September 15, 2018, 2:26 pm

(Sep 15, 2018 02:25 PM)Dynamo Wrote: [\[CITE\]](#) It depends. Are upgrades automatic, or manually approved?

All upgrades are automatic after X confirmations (crypto network)

However his method won't work.

Yes, please send 50 BTC to the addy and omni will give you more than an upgrade lol

NoSuchAgency - September 15, 2018, 2:34 pm

hahahahaha thanks for the laugh OP

anyone whos ever done any work with coinpayments would know instantly this doesnt work.

Omniscient - September 15, 2018, 2:40 pm

I keep telling this clown that he can't upgrade but he's an idiot. He can tamper data and send \$5 too. He can pay a penny for the Grand Amethyst award. But guess what, you won't get the award, you

won't get the upgrade. Payments are checked AFTER they are made.

Unfortunately OP is a skid who doesn't get it.

ilovegirls - September 15, 2018, 2:44 pm

I get understand your logic man, but what you did with me you gave me -10.. and what was my crime? is I give alert about your site but instead you appreciate my effort you are trying to demotivate me..

lol

lol

probably asking for a bounty for something thats not a bug was where you went wrong. if you report bugs for free you might get like an award or something.

Maybe because you think paying 50 BTC (\$325,300) for root group is a bug.

It's because you wasted his time.

If you knew a fucking ounce about how payment processing is worked, you know that there's verification AFTER the payment is received, after Coinpayments/PayPal/whatever else sends the IPN/webhook message.

lol.. I asked bounty not for a bribe man.. and tell me if this is not a bug then why they shows me begin process, instead admin recheck the payment and many other thing after payment but it is the

good for this site? hackforum is the number among all forums so these things are good for this forum? tell me.. these bug can be remove within few seconds.

lol, world is moving towards robot and automatic..but this forum still follows fucking manual system to check. lmaoWhat would happen is coinpayments would refund the payment for failure.

Omniscient - September 15, 2018, 3:10 pm

Quote:these bug can be remove within few seconds.

Technically you can't prevent tamper data. This is why you're a skid. You just don't get it no matter how it's explained to you. This isn't an exploit, it's not even a bug. You just have to verify data AFTER the payment is made. Any site that doesn't is open to exploit.

Actually the payment process is 100% automatic here at HF. No human involvement whatsoever for a regular valid payment. That goes for upgrades, awards, sales tags, and paid stickies.

There is code in place that verifies your account data before granting an upgrade/award/sticky/sales tag.

s1nister - September 15, 2018, 3:30 pm

I was reading this thread and was like ???

Stop me if you can Omni or Xerotic I am going to sell this 0day to other hackers before upgrading me to R3KT ?

@OP just close this thread and stop embarrassing yourself
