Enzio - September 17, 2018, 10:02 pm

I don't think there are many users on HF that have sold legit services with numbers like these :).

I never once thought I could help that many people make money online. Some of those I've helped had never made money online or barely so that's even more impressive IMO. These are all screenshots from users on this forum (You can probably find their threads around the forum). I've posted a few tutorials on HF already that can help you guys make similar numbers.

Conscious - September 17, 2018, 10:05 pm

Really amazing!

Is this all from paid advertising or primarily from paid advertising?

Do you have any way of being contacted I can't through PM at the moment I'm really interested in learning about all of this

Wheelie - September 18, 2018, 6:16 pm

I'm one of Squalo students and I must say that his FB knowledge is quite impressive. I didn't know a lick of FB marketing and now I know the basics of running an ad, creating one, analysis it and know when to kill an ad. He's taught me so much and I'm forever grateful for it. If he opens his services again for mentoring don't hesitate on buying it. It's well worth the money.

I've made 1.3K on Shopify as of rn but I'm hoping to find a good winner to scale it to 1k a day and maybe even more. I still have a lot to learn. HHe'shelped many people here on HF. Overall he's one

of the most chill members I know. Thanks again

I really hate these "sales" screenshots from Shopify, they mean nothing.. the person could have even made a loss after Ads + Product Cost... people reading this don't seem to know the difference between Gross profit/Operating profit and Revenue, one comment: "Good shit man! Those are some nice profits. Are you looking to expand?" what profits, I see none.

I like the fact you're trying to motivate people but if you are motivating people who don't understand that it's not really motivation since it provided no insight into profits, then will they really be successful?

Why share anything then? this isn't motivation or proof of profit. You could "scale" to 5k/day and only be making \$100... so show people facts, not a fairy tails or at least explain to people who don't understand that it's not "profit".

If that's the case why you on this thread posting bs? I'm pretty sure the rest of them are old enough to ask if they are all pure profit if they wanted to. Also a side note since you insisted so much, my 2k a day, was 70%-80% profit thanks to Squalo's fb ad mentorship.

Greetings,

I had been following Squalo for quite a bit (Sorry bro, your experience, and mad skills just impressed me. Hope to learn much from you in the future). But I couldn't help but comment today because of what BS that guy was posting on your thread.

Sometimes people's way of thinking just baffles me but then again that's how most people are sadly. They say things which makes no sense. As the saying goes, "If you can't comprehend and accomplish something - that thing automatically becomes hard/bad for you." (Story of the fox who gave up on the grapes because he couldn't reach it and said I didn't go for it because it is sour anyways).

I've come across multiple Shopify stores (Those with \$5K/day revenue) which after calculating Overhead, Ad spend, Product ordering leaves the owners with a healthy 30-40% marginal profits, maybe even higher. I like to be conservative with my numbers. hence the lower margins But even then, it is like what \$1750 pure profit in your pockets out of the \$5000. Only people who would be insane enough to question those numbers would be someone who doesn't know how Shopify or Dropshipping works. Because if someone is bringing in revenues over 5K, he is on a different level than your average Dropshippers. He has 'scaled' his way to that position.

So next time, you come and bash someone else's thread like this. Please, look at what you have done for the community against what Squalo has done. Because if people have issues with the numbers and not understanding how much of that is profit, I am sure people would take the time to PM him and ask him about it. Just leaving my thoughts.

Regards, Witcher.

that's fucking sick boss, gl in the future

Fortune - October 27, 2018, 11:09 am

Holy shit, this is amazing, I wish I had these kinds of numbers from Shopify right now. I always wanted to try Shopify but never really had the chance. Even if I did, I don't think I'll be able to get this kind income. Goos job!

Capital Bra - October 28, 2018, 3:45 am

Wow this is amazing. You are the shopify pro.

EatingChickens - October 28, 2018, 5:08 am

That's a fair amount, congratulations! ?

You need to invest to be able to make such amount bro.

I can't suggest you a niche. Do your research to find out what works :).

Shouldn't you be training so Vegeta doesn't become stronger than you instead of making money?

I just have to buy Bulma's love and it will destroy Vegeta.

If it was 6 months ago then I'm pretty sure I told you;

A) I don't accept more students

B) I don't have time to do mentoring(at the time you messaged me)

Quite certain I didn't explicitly told you "no".

Yea, answer was something like that. I'm not being negative, so don't get me wrong. Also if you have any available spot hit me up.

Wow Squalo, those are some serious results well done... Been looking to get into eCommerce stores, but I have no idea where to start or go. Would be honoured if you could give me some guidance of where I can go to learn or other good beginner start points. Thanks a bunch mate :) Cheers,

i asked the admins of devrant where they bought the stressballs with custom logos on it. they said it is from halo.com company. can this be integrated into shopify?

Yeah, I have they are highly informative thank you, but I just don't know where to start whether it's too late to get into drop-shipping and move to a different type of ecom or to really start hunting for unsaturated niche and go from there.

Not sure but ask Halo if they accept .csv with orders. If they do, just export the orders on a .csv and send it to them.

Hey Squalo, sorry if this is a bad place for it, but please keep this post in mind (& PM me) if you still mentor. I've got more than enough funds, time, and potential. Been studying this area a lot since a year ago but could use better guidance. Thanks!

Velial Squad - June 23, 2019, 3:04 pm
