Thread: [How to Get/Share/Update GEO Location using GeckoFX 45 VB.NET?](#)

silver_shine - September 18, 2018, 7:49 am

I'm facing a problem. I have been trying to Fix it for 3 days. I need to Get/Share/Update the GEO Location through GeckoFX 45.

Is there any working solution available? Please.

You got any more details? What service are you using for Geolocation? API link? Name?

I suppose you would do it with an API?

Yes, There is An api but it's an Ajax request. That is why I could not Go to the next step. Event It does not work manually Through GeckoFx 45.
