Thread: [Selling SMS Verification Website - \\$660 Monthly Sales!](#)

InvisibleZeus - September 19, 2018, 3:58 pm

Selling my SMS verification website. Made \$660 2 months ago but I have had zero time to advertise it so it's gone down a bit. Pm me for the domain and for offers. It has a lot of potential.

Current Offer: \$100

BIN: \$600

InvisibleZeus - September 20, 2018, 1:17 pm

First offer out there - \$100. \$50 increments please!

You should make it clear that no panel files are included which means there's no possibility for the buyer to host this himself. Basically what's being sold is the domain name.

I don't mean to sales-trash and making this post has nothing to do with me running a similar site.

Ouch. Let's have some fun.

1. You didn't even own this project (domain!) 2 months ago.

mbergwall2222 Wrote: [\[CITE\]](#) I purchased his SMS verification website (Definition: smscode.net) from Biggy on 08/15/2018

2. One month later (~15th September) you say that you haven't made more than \$5 in total. And these \$5 you lost because of chargebacks. ? mbergwall2222 Wrote: [\[CITE\]](#) It's been about a month since I purchased the site, and I have made a total of \$5

The quotes are grabbed from the deal dispute thread that mbergwall2222 made about a week ago. <https://hackforums.net/showthread.php?pid=57591694>

I feel for you, I really do. You purchased a DOMAIN NAME(!) for \$550 that isn't in any way special and you have not made a dime.

What I don't like is the fact that you're trying to sell this scam to someone else but again, I understand your frustration.

On top of this, you leaked customers personal info openly in the deal dispute thread (I have removed sensitive information).?

You aren't allowed to call someone scammer unless you've been scammed by them and have a valid deal dispute thread.
