You need to add a link to the contract or this will just be marked invalid.

this report is legit and i can confirm this guy was a scammer , he even tried to scam me last night

you paid him even after he got blocked ? fk men ?

thats what he has to say about you

fucking shameless human , still asking me 25\$ lol

HF is not full of scammers. It has some, yeah but you need to do some research before handing money. Doesn't seem weird when a person out of nowhere offers a method and asks only for crypto payments? And if you search his skype, you find 0 results. Isn't that weird too?

I don't know whether this will help or not but I think I should share this:

I don't know but Never EVER give fake reviews. I really don't want myself or any other user to fall for these shits just because of some fake vouches.

8BallPoolKing - September 20, 2018, 4:48 am

So you gave an fake review telling method to be working , so more guys can buy and get scammed?

I belive both members who did fake review and vouches should be banned too , though its also possible it was an team work of u all

Don't blame Hack Forums for your incompetence. His profile and trust scan alone should make all alarms go off. Matching IP's, offering an adwords method which looks exactly the same as those from previous scams, 3 days old account and more.

You didn't even use Contracts for the deal. You should change your name because you're definitely not a genius.

No Contract link in OP = Invalid deal dispute. Thread closed.

Unbelievable. You are the reason scammers come back time and time again on HF. Pure idiocy.
Banned for Fake Vouching.
