Thread: [Let me Build any bots or software you have dreamed of](#)

traveling-monk - September 21, 2018, 5:20 am

Dean here the owner of thebotempire.com where I teach people how to make bots and software. However, I understand that not everyone has the time to learn how to make software so that is why I am opening up this service.

I will build any software that you have always wanted to be built maybe for your own projects or to then sell on.

Let me know what kind of software you would like done and we can try and make a deal.

Thanks for the kind words means a lot...

and i have contacted everyone that has reached out to me thanks.

Funkyshot123 - September 22, 2018, 8:29 pm

Highly respected by me. I asked him to help me with a small program, He spent some time talking with me about it and exactly what I wanted. In the process of talking to him I figured a solution to my own problem and offered him a few dollars for his time. He refused and said just remember me for next time you need something done. 5/5 dentists would recommend.

It has been great working with you guys i have space for 1 or 2 smaller projects get in touch :)

traveling-monk - October 4, 2018, 2:47 pm

More bots have been finished! taking a few more orders, message me to discuss your ideas.

ROI - October 9, 2018, 11:13 am

Could you do a working front page Imgur bot?

traveling-monk - October 10, 2018, 3:12 am

Pm me with more details mate

traveling-monk - October 11, 2018, 3:48 pm

Hi Guys,

Just a quick note to all people that have ordered a project, I am back now after a terrible few days everyone has been messaged I will not be taken on any more orders while I catch up with the backlog. I will be working 14+ hours a day again now. thanks for your support

traveling-monk - October 14, 2018, 7:58 pm

Work all caught up... got clear days ahead come speak to me about your projects. :)
