Thread: [Venya UID= 3836729 refusing to use contract](#)

TommySalami - September 22, 2018, 9:46 am

UID= 3836729

User PM'd me saying he could sell HQ USA loads and gave his discord, we chatted and he didn't even know the difference between loads and updates which is weird because any legit seller knows the difference.

We agreed to do a test \$20 for 40 bots and he sent his BTC address and things took a turn when I said I wanted to start a contract.

prntsc/kxg360 i cannot post full link

User then proceeded to delete all of his messages and say "fuck you" "you're retarded"

Am I at fault here? I wanted to use the contract system to ensure a safe deal and have protection on my end incase he decided to scam me so I could make a valid report.

I TOLD YOU I DONT DO CONTRACTS FOR DEALS OUTSIDE OF HACKFORUMS, THIS IS MY OWN SERVICE, AND NOT USING CONTRACTS IS MY OWN PREFERENCE. you really are fucking retarded.

Prawnster - September 22, 2018, 9:53 am

Contract system doesn't "ensure" a safe deal still, just use a middleman. The contracts won't protect you entirely and it's really not super important to use one lol

What's your reason to not use a contract? It literally makes 0 sense to not use one. It takes 1

minute to make and is there to protect us both during the deal.

its my own service outside of hackforums, use your fucking head.

ive just now told him im not doing a deal with him, hes going to try to accuse me of more things now. "didnt want to use a middleman because hes a scammmerrrr" no i refused to because i wont do a deal with you since you did this shit

Right fucking here... WRONG.

Your advertising this kinda shit on Hack Forums but refuse to use the system designed to keep buyers safe.

Fuck you.

And use cracked software, and do all sorts of other sketchy shit.

Your first fucking thread, you admitted using a cracked copy of my software for fuck sakes.

<https://hackforums.net/showthread.php?tid=5833501>

And NOW, your logic is you want to keep everything offsite to avoid the contract system?

Again, Fuck you, that is sketchy AF.

Im a legit fucking seller and trying to figure out ho to incorporate the contract system MORE in to my sales, and you wanna do the exact opposite, why?

I can think of ONE reason.... You have no intention of being legit.... Simple as that. so again GO fuck yourself and your sketchy behaviour.

Id advise the entire community to avoid you like the Black Plague....

[Its literally your FIRST thread.](#)

Bitch, complain, tell me Fuck you all you want... Your sketchier than a \$3 hooker in the back alley of Compton.

You honestly think this would be my first time around the Merry-go-round with some retard like you?

Be legit, use a fucking contract you dweeb....

im not complaining im only explaining myself, i understand that i look sketchy but tell me another reason other than i used a cracked copy of your software once and i dont want to do a contract.

Tempr5 - September 22, 2018, 11:09 am

If someone refuses to use contract you simply dont deal with them.

Then get the flying fuck out of the marketplace.

The rules are here for a reason. Simple as that.

I can not WAIT until Omni reads this fucking logic.... ?

fucking get my account banned, ill use the contract for my sales on hackforums, this was over discord. i dont see how im breaking the rules. lul

i told him that im not going to do the deal, i told him to move on after he said he wanted to do a contract. wasnt trying to force him to pay or anything

Juffar - September 22, 2018, 11:12 am

Don't fall for it, it's no doubt he's not using contracts to make sure you can't open a dispute when he scams you.

Why are skids scamming (at all) for amounts like \$20.....

CASE AND POINT

If theres no problem use a fucking contract, shit it helps build your marketplace rep as well, assuming your not fucking around..... ???

as i just said, this wasnt over hackforums and he had no need to make a deal dispute here. for example: if i make an ad on ebay that says im selling a car, and he doesnt want to buy because i look sketchy, would it make sense for him to tell the store or whatever across the street and expect them to do anything about it?

armada you should re think that a bit

That is one of the most retarded comparisons I've heard in a long time kid.

But you did confirm what I said in my other post. The fact that you mention "he had no need to make a deal dispute here" is because you planned on scamming him and knew that without a contract, your HF account wouldn't get affected by it. WRONG. You advertised your services HERE.

Do you think it's okay for me to offer services / selling products that are against the rules as long as I "force" the customers to complete the deal with me off-site? Idiot.

considering you can get closed if you get caught scamming while using a contract, i'd argue that it IS important to use one
