Appreciated !!

Traum - September 26, 2018, 4:08 am

The pics don't load for me. :(

Ren And Stimpy - September 26, 2018, 4:19 am

DOPE! Looks good

Thanks mate, thought they were embedded...

Looks very good op, although the wood textures could be a bit more high rez.

vyactor - September 26, 2018, 8:47 pm

Thank you for your comments. I would tryna making that more HD the next time if I create something.

NiXiOM - September 26, 2018, 11:55 pm

Pretty good mate, what soft you use for ?

I use Adobe Illustrator and even Photoshop sometimes.

Aveling - September 27, 2018, 5:47 am

That looks fantastic, well done! What is your next project?

Strayaa - October 13, 2018, 8:21 am

Nice job dude! I'd recommend you try learning how to use Blender. It's free and much more powerful

Neodraxis - October 13, 2018, 7:34 pm

Looks quite nice, however, it seems as if the quality of your textures are very poor. They're very grainy and such and it is easily noticeable. If I am going to be honest, your pre-textured image looks more high quality than your textured.
