Thread: [Shell Gas Discount Method](#)

Tucka The Cuck Slayer - September 26, 2018, 10:29 am

Interested in buying a method that gets you the \$.50-\$1 discount on gas at shell gas stations. I've been reading up on this and figured out that a method that was much better no longer works and I understand how it did work. I'm just curious if it relates to the new way people do it or not and either way how is it possible to do (just need it for personal use that's it)

If someone can help me out I'll pay. PM me!
