Thread: [Supreme Checkout Bot](#)

Agent Raigar - September 26, 2018, 4:46 pm

I've been working the past couple months on this bot and I've gotten to a point where I need to know if this is something worth selling. I'm looking to either sell the project as a whole or sell copies of it, depending on the offer(s) I get.

It's an auto-checkout bot for Supreme (<https://www.supremenewyork.com/>) and a lot of money can be made with it. I got a CDG hoodie two weeks ago as a test with only 1 task and no proxies.

Features:

- Multiple profiles support
- Multiple items per cart
- Keyword/Color/Size lookup
- Proxy support
- Run multiple tasks
- Restock monitor
- Checkout time is 3-4 seconds
- Captcha Bypass

Coded in C#, so it's not a lousy chrome extension like most bots.

Captcha bypass or captcha API capability?

Cause captcha API is slow as fuck for something like supreme.

Bypass ofcourse, otherwise checkout time would be 2 minutes lol

I'd be willing to give it a go if u were willing to sell copies.

Let me know a price.

I'll keep that in mind, probably \$200 a piece if I decide to sell it.

Hey i m newbie here but totally interested in your service. PM please, would love to work with you

Khasper - April 16, 2019, 4:26 pm
This is pretty cool, you should make an affiliate system since i'm sure a lot of people on here could get you sales

Crypto22 - April 23, 2019, 2:39 pm
I m new here but completely interested in your service. PM .

If i wouldn't be using hastey for supreme I would probably be interested in your bot.

Could be interested in this for tomorrows EU drop just to run a few extra profiles on.

You got anything in place for if pooky gets changed?

Crypto22 - April 24, 2019, 3:59 am
Hi i m interested and would like to have Bot.
