Thread: [R00T upgrade requirements](#)

Yu Yan - September 26, 2018, 5:29 pm

I purchased leet and epic for the 2fa, trust scan and PM space and now i'm after the final usergroup (R00T) aswell so i decided to collect reputation points, due to the 100+ reputation requirement. While doing that someone replied on my free bytes thread that i also need to be a member for 90 days before i can purchase R00T but i can't find that requirement back anywhere, can someone please elaborate this?

Thanks for the bytes though.

PerfectStorm - September 26, 2018, 5:30 pm

This I believe to be the case (90 days registered) but I am not 100% sure.
