Thread: [Selling Xbox/PC Microsoft game codes / vbucks](#)

Bimmer - September 27, 2018, 1:28 am

title is self explanatory.

this is done from basically i'll buy the game as a gift and send it to you.

also selling vbucks for xbox/pc accounts.

this is a 100% legal method.

yes i am discounting but not much of a discount unless its a huge bulk order then the price might dip.

pricing/discounts differ for everything just lmk what you want and i'll give my pricing.
