Thread: [How can i make money if im broke](#)

nikola58 - September 27, 2018, 10:55 am

Can someone please tell/teach me a method to make money online. I'm not good at programing or whatever, but i would like to know more about drop shipping and shopify to make atleast 50 to 100\$ a day

I would really appreciate it

b?xxy - September 27, 2018, 11:05 am

Keep trolling for methods and trying new things.

Money isn't going to just come to you, you have to be proactive.

Also, the discussion of Drop Shipping is not allowed here.

Please read the [Help Documents](#)

As far as I know discussion about dropshipping is allowed, can't recall Omni banning it. The Help Documents only talk about "blackhat dropshipping" using carding.

OP, being broke and dropshipping doesn't work too well together as you need to advertise your store (if using Shopify or another eCommerce CMS) or pay for inventory if using Amazon FBA.

If you really don't have any skills I'd highly suggest either getting an actual job first and saving some money in order to invest it later on, or acquiring high-value skills. You can't just go and make \$50-100/day without any skills or investment what so ever, if that was the case everyone would be doing it.

Yea i'm broke but let's say i can invest 120\$ to start my buisness

What is a good method to get me started and then i can invest more as i make more

I'm good at marketing

I can do some photoshop

I keep up with today's trends & music that's why i want to know what can i start doing to earn me some cash,those youtube videos that explain how to do it are just for the clicks i get it

I don't know jack shit about coding,programing or anything like that

kisiludrew - September 28, 2018, 2:52 am

Hey, from what I've seen you say your good at marketing and your also interested in dropshipping. I don't know what your budget is but I can suggest you get busy with researching and learning about dropshipping,lots of youtube videos plus facebook groups that can help you get familiar with the business.Make connections with other people who are having results and connect with them .

One thing you have to note is for drop shipping you need to have money to test out products plus learn advertising on the different platforms.

Getting to \$50-\$100 might sound simple but it is not especially If you do not know how to go about it.

Learn as you apply and be patient results come as a result of consistency.

I know i have to invest i have watched lots of videos on youtube but i dont know how legit theese people are,although i have learned lots of things from watching them like facebook advertising,ig influencers,e-mail spams,redirecting audience,promotions and all that and i know most of the things to start a shoppify store.

BUT money is the problem for me i get paid like 200 euros a month,don't tell me to find a better job because in my country it's the standard pay.

What i really need is to make some money so i can invest in e-commerce if somene can help me out with that i would appreciate it ?

I would recommend doing garage selling on the weekend. Go to different garages... buy 100\$ worth of stuff and sell it individually on ebay :)
