Thread: [Learning to Code Advance Keylogger](#)

donat2013 - September 27, 2018, 1:29 pm

I would like to code my own KeyLogger which will have so many features like being able to recover saved passwords in windows operating system from different applications like Foxmail, Outlook, thunderbird and lots me; also it should be able to recover from browsers and also FUD.

Please i need help, anyone which suitable website for this should send me a link.

Thank you in advance.
