Nice and beginner friendly options to start with.

Though one of the emthod will take some time and/or skill but it's definately possible to monetize using this.

Thanks a lot for the VC ?

Got a vouch copy.

English not that good but understandable.

Method 1: didn't understand it

Method 2 is 100% blackhat but gets you money

Method 3 is greyhat and I see that you could make money.

Did you made these methods?

Looks like you just took some free methods and make it as your own.
