Thread: [Beginner Hacking Lessons \[First Lesson Free!\]](#)

sh4moon - September 28, 2018, 3:38 pm

Want to learn to hack? Your first class is free! Figure out where you want to go with hacking and I'll help you along the journey. My primary area is network/server/client hacking. But I also have experience with botnets, website hacking and wifi hacking.

Learn to hack into secure servers

Hack into networks

Learn to use common hacking tools

Find the area of hacking you want to specialize in

Develop the mindset necessary to hack

Learn Wireless attack techniques

First lesson free then \$4 per class

PM me if you're interested
