OP sent me a vouch copy of his product.

Guide is well written & kinda detailed. I haven't got much to say tbh,method seems ready to work without needing any extraterrestrial requirement.

OP is offering 1-on-1 support for his product,but I think it is pretty useless as even a 7yo kid could do this.

Only thing you might want to change is the price.40-50\$ would be perfect.

Good luck with sales.

Oh and yes method is whitehat.

Will leave out a detailed review.

Thanks!

The method involves CPA, but it is NOT anything well-known like creating an IG/YT account and posting free vBucks or iPhones offers.

And yes, you can pay with PayPal, the link is in the first post :)

Recently, I've come up with a new noob-friendly whitehat method which is very special and unique. You don't need any professional skills to get started and start profiting. The setup should take up to 2 hours and later only 15-25 minutes daily will be needed for the maintenance. After setting the method up, you should see a consistient revenue stream directly to your PayPal or bank account just on the first day. For the first few days, you should expect \$100+ daily which will scale up to \$300+ per day. There are no special requirements for using this method, so you can earn money no matter where you are located, or what your age is. All you need is a computer with an Internet access. What are you waiting for? Start your online revenue stream today!

Upon the purchase, you will receive everything you need to execute the method, as well as my contact information in case of any questions. I'm so confident in my method, that I offer a 100% refund if you try the method and don't make anything.

The Black Friday sale has ended. We're back to the original price now. Thanks for everyone who participated.

Product: [====>\[2000\\$/MONTH\] MY PERSONAL PRIVATE METHOD | 100% EARN OR REFUND | 1-ON-1 SUPPORT](#) by ".luci"

This eBook consist of 1 main method and 3 pages as well as a few extras.

The grammar of this eBook is overall good without too many errors. The structure is also decent.

What is included in this product bundle is the main 3 page eBook as well as another 2-page bonus eBook both about the same overall niche. There is also a 7-page bonus eBook with another known method overall and a single page bonus txt with some potential. Without beating around the bush this product is all about the CPA niche and how to profit from it. The main eBook will tell you a site you can use to find offers to make money with, as well as general tips and guidance on how you can start earning with the said offer(s). as said, you are taught in general how you can approach making money in this niche and do it without too much effort. The problem I have with the eBook overall is that it just lacks detail in my opinion. I mean yes, you are told fairly well how you can set things up and start earning, but I just feel like a lot more information could have been put in here. It also doesn't help that there are no screenshot examples etc. either. You are told enough details so that you should be able to start earning at the very least, but if you are someone that needs your hand held throughout the entire process you may need extra support from OP for that.

It should of course also be mentioned that this is far from an original method/approach at all here on HF. These sorts of methods have been around a while and I have seen these on a decent number of occasions in other eBooks as well in the past here on HF. Some of them in much greater detail than this as well.

The 2-page bonus eBook doesn't include much except another site you can use and an example offer you can take advantage of and hopefully make money with. It's nice that the bonus is there at the very least, as you do get another idea of how you can earn money with different sorts of offers.

You are also given some barebones "how to get accepted" txt files in case you have trouble getting accepted into the sites you are to use to make money with.

The 7-page bonus eBook contains another widely spread and overall known method on how to make money from HF as well as similar sites. It's nice that this bonus is included but it doesn't really add much value at all. The single page txt bonus has some potential but could use a lot more in-depth and proper explanation as it is horribly barebones as is.

When it comes to how much money you can make with this, I mean, the sky is the limit as with a lot of these sorts of methods. The setup time to start earning should not take you long at all, and you should be able to get your first payouts fairly quickly depending on the site(s) you use.

Final Thoughts

The main issue I have with this eBook is that for \$50 I have really seen a good number of other eBooks provide much more value and content at the same price as this as well as a good bit lower. There is also no unique selling point to this eBook, as the method is nothing new, and as said

already exists in other eBooks on here. With all that in mind, it's hard to justify paying \$50 for this eBook when I have seen multiple other eBooks with more content, detail and better structure at not only the same price point but as low as \$25 in some cases. Due to this, I would say this eBook is for the uniquely interested only and if you have more than enough money to spend.

Please answer the below:

1. Do it involve CPA, Amazon/eBay, resell digital product, affiliate marketing, survey, ewhoring.
2. Same as above replied, if I make \$2000 a month with your mentoring, do you offer full refund?
3. How much minimum invest to start?

The main method revolves around CPA

Everything depends on your works, you can't just read the guide and do nothing. You will get a refund if you don't make up for the cost.

No investment is needed tbh, but 5-10\$ might be useful

Yup, the method will work with free traffic. It would be nice if your English is good (doesn't have to be the best).

You can advertise the stuff on Instagram and YouTube and yes - this is scalable like a snowball.
