Help decrypting my bf files he encrypted on my cell

bestoflocals - September 30, 2018, 9:52 am

Hey. Do you have Discord? If not, make one and PM me your contact. I'll try to help you through this.

He uses an SD card , and I know it has a lot to do with Google.

Not sure what a discord is

Exodus - October 1, 2018, 9:12 am

You probably won't be able to decrypt it since that would defeat the entire purpose of encrypting it.

(Oct 1, 2018 09:19 AM)Makhnovist Wrote: [\[CITE\]](#) Wrong section, I come here to see people trying to figure out the difference between lea and mov, not to see people trying to decrypt phones.

might just want to lower your standards a bit a really small portion of the posts here are actually questioning the opcodes

macheti228 - November 20, 2018, 7:58 am

good information for ?? men

default - April 15, 2019, 3:10 pm

Well please give us more information, what is it encrypted in?

Show us some proof or a PoC so we can examine it...

GnosticPlayers - May 19, 2019, 11:43 am

Pretty sure this is the wrong section...
