Thread: [Scammed by RDP-KING 4013520 for \\$50 BTC](#)

Whiteee - October 1, 2018, 11:31 am

Hey all so beware this dude.

His post: <https://hackforums.net/showthread.php?tid=5890057>

His Profile: <https://hackforums.net/member.php?action=profile&uid=4013520>

Contract: <https://hackforums.net/contracts.php?action=view&cid=10726>

Contract Dispute: https://hackforums.net/contracts.php?action=view_dispute&cid=217

I ordered 15 (\$50 worth) RDP's from this guy.

We talked and I asked for residential (home) RDP's if he has them available. He said he does.

I paid him...

<https://www.blockchain.com/en/btc/tx/4c2119186a2e654ac013956d07e872e1daeda9b5e94997df5e398ce7231877f9>

Upon delivery:I only received 14 RDP's when I paid for 15

3 of the RDP's are not working.

All of the RDP's are server boxes and not residential like I asked for.

I have contacted him about this and he said he will be looking into it, but that was 3 days ago. Now, he is ignoring me. I would be okay with everything fixed and to get what I paid for or only a \$35 BTC refund, he can keep the other \$15.

I just want my money back or what he owes me.
That is all.

blackjesus Yesterday at 9:09 AM

Yo

I'm back and sorry the time difference is crazy and chill I will replace them I promise
Let me get home pls

49023749023740197240971 Yesterday at 9:10 AM

I would like a refund man. You can keep \$15 I just want \$35 back or a full refund. These are not what you described them as.

blackjesus Yesterday at 9:10 AM

What ??

They are not what you asked for

49023749023740197240971 Yesterday at 9:11 AM

Not at all. I asked for residential, home RDPs. These are all server computers running windows server.

That right there is false advertisement.

blackjesus Yesterday at 9:12 AM

I see

And can you give an example of a residential rdp let me take a look

49023749023740197240971 Yesterday at 9:13 AM

:face_palm: I don't have any that's why I wanted to buy some.

A residential, home rdp is a rdp of someones home laptop or desktop computer.

blackjesus Yesterday at 9:14 AM

And then what you seek for is not rdp it VNC those are the one I think of again but when you say rdp those I sent wasn't data center

49023749023740197240971 Yesterday at 9:14 AM

The ones you sent are all Windows Server computers.

You can RDP on windows 7-10 desktops and laptops too. That's why I asked if you had any. You said yes so I bought, but none of these are.

blackjesus Yesterday at 9:15 AM

We will figure it out hold pls

49023749023740197240971 Yesterday at 9:16 AM

I don't want anymore man. Just refund me \$35, you can keep the \$15 to yourself.

49023749023740197240971 Yesterday at 10:23 AM

???

49023749023740197240971 Yesterday at 5:33 PM

49023749023740197240971 Yesterday at 5:42 PM

But yeah definitely guy deserves a ban like any other scammer.

RDP-KING - October 5, 2018, 12:37 pm

I don't owe this dude any shit to be honest , he messaged me for rdp and I sold him the ones I have in stock and later after some hours before those rdps went of I checked all the history and were all used. Then came up with this argument that they are all some stuff you don't need that crazy.

If he wants another 1 left for the RDP then I send it , but refund you can check my tos Sir
