Hi there,

Awesome thread design buddy, though your Buy It now button isn't working I guess?
Good Luck with your sales ?

Using a new look is perfect if you're trying to grow your community on twitch, your viewers will love your new look, it will bring in more attention and you will come off more professional yourself bringing you more viewers, donations, subs and ultimately being a bigger and better streamer especially with the holidays coming up when people have more time to watch streams!
