Thread: [Best Spoofed VPS and Dedicated Hosting](#)

Franz Hopper - October 2, 2018, 12:48 pm

Hello, Im offering a host for all of you that have very good Spoofed VPS and Dedicated Servers.

We also offer:

- Cloud VPS (With a private addon for setting up 17 methods of I7+ 24/7 support and API setup if wanted) This VPS are offshore
- Bulletproof VPN (1Tb/s DDoS Protection Private/No logs)
- We also offer domains registration with our domains providers. The Layer 4 Addon is available for Spoofed (VPS or Dedicated) and all the methods are coded by us as we closed our stresser and did this.

L4 Methods: NTP, LDAP,SSDP and VOX. We will provide setup and help and API setup FOR FREE if wanted.

Cloud VPS are allowed for scanning.

What are you waiting for? Check Cloude.io today and enjoy the cheap prices of our products.

Payments can be made with Paypal or Bitcoin (Coinbase Commerce) for all products.

Alberto Romero - CEO Cloude.io

We also have a Discord server! [cloude.io/discord](#)
