Legit service. Thanks again.

Web panel has been released!

All verifications done through SMSVS will be at a flat rate of \$0.50!

Come and take advantage of this promotion!

Also, for the first 10 registrants, we will be giving them \$1 on their account to test out our service!

Post on the thread with your registered username!

Note: There's currently an issue with the deposit system, hence I will be processing all payments manually. But because of that, there will be NO 5% fee for Paypal payments and \$5 minimum until the payment system is up and running.
