Hey,

Nice I watch some people do well with rengar, but I haven't taken the time to really learn the champ.

Thanks for sharing!

'Ben - October 4, 2018, 4:49 am

Main: Jinx/Tristana

Role: ADC

Rank: Silver, should be in bronze. Was Plat once then I became a toxic cunt, mindset is a mess. Don't know what changed but the game manages to wind me up. I'm about to start playing again after a 6 month break, see if I can get back into it with better habits.

Sleep - October 4, 2018, 6:32 am

Not playing atm but

Main: Singed

Role: Top

Rank: gold 2

Hey,

Ah, being toxic in the lol community is never very rewarding. Lucian and kai'sa are decent right not as well.

Good luck on getting back into it, first few games are always rough after a break.

Hey,

Singed is an interesting champ. Why aren't you playing atm?

EzBi91 - October 4, 2018, 9:14 am

Main: Ezreal/Cait
Role: ADC
Rank: Gold 4.

Was plat 3 seasons ago and would hit dia if I had a few more days. Started hating the game, then quit it. Back to it after 6 months and I am really shit now.

It takes some time to get used to, and coming back from a break is always challenging. You might have better luck with Lucian or Kai'Sa, as they seem to be decently good at the moment.

Mordekaiser bottom. ooph, that's something you don't see too often, but I have seen it work in the past. That dragon does a shit load of damage early game.

Hey,

You should, beats a lot of the meta midlaners atm. Ban LB and learn to manage the wave early game!:))

It isn't really about the dragon. I just go for the Morde+Blitz premade cheese strat.

Role: ADC

Elo: Gold 1 (Dropped because of Inactivity)

Ouch, that will do it. Something about losing at summoners rift because of something simple seems to bring out interesting sides of people. I've never been banned, hopefully I can keep it that way. When my team is doing questionable things I usually just bite my tongue.

DeJaVu - October 18, 2018, 8:48 am

ADC, I main all adc champs.

Peaked D3 before I started boosting

Thanks interesting. How did you like boosting and did you make good money doing it?

Lion - October 19, 2018, 12:15 pm

What champion do you main? Diana

What position? Mid

What elo are you in? Peak P3, G1 currently after decay. Quit for 6 months, now I'm playing a bit again.

braindeadteam - October 19, 2018, 7:54 pm

ATM I'm going vladimir mid at Gold 5, not really hard stuck cause i play like 1 game a day but definitely slow progress when there shouldn't be

My mmr is fucked and I only play with people higher than me under 40% and boosted plats that shouldn't be there

not trying to be racist either but chinese junglers only come to this region and first pick jarvan/lee to soft int

Prince™ - October 20, 2018, 2:23 pm

Udyr, jungle ofcourse and my current elo is Platinum III.

ipkerzi - October 20, 2018, 7:44 pm

Recently started maining Tryndamere.

I prefer Top but can go Jungle.

I've hit P5 with this champ and hit P2 filling top/jg/supp with panth/shaco/morg.

Dexter Von Glock - October 21, 2018, 6:42 am

Lux is fun, she's decently unstoppable if she snow balls, but she's also supper squishy. How long have you been playing for?

GorillaHelpMe - October 23, 2018, 11:53 pm

I kind of try to play fill. I was plat 2 a few years ago and I logged in still being Plat 2 lol. I used to main Udyr Jungle but idk how effective that is now. I heard that victor top has been crushing lately.

Plat decays if you don't play. Do you mean it shows somewhere that you were plat 2 at some point?

That's cool though. I used to play Udyr a lot. I haven't been staying up to date with the latest meta as the new back ops came out.
