Are you fucking autistic or what? I'm here trying to get you a leg to stand on and you just cry like a daft cunt "ooh my accusation is believable go away if you don't believe me :'("..." just drop proof or get someone to drop proof and post a CA so that if it is a legitimately trash service, you can get it known instead of just a random accusation and then crying when people ask for proof - that's not how you get your point across on HF.

Ehh I think he's just misinformed about how shit runs around here and instead of learning has resulted to crying and acting like an ape; hopefully it's an act, so maybe he'll see sense and back his claims...

Subs are down for all panels atm due to YT changes. Just wait it out, they'll refund you as long as you have the mental capacity to cooperate, which I doubt.

AMPServices - October 4, 2018, 3:34 am

If you give me your username on the panel I will be able to check why your experience was bad. But my blind guess by looking at the other posts is that you probably got suspended for insults.

If anyone has a bad experience with us just send me a pm and I will warn any of the customer support if they are on the wrong side. They are humans so it is possible for them to be stressed. In any case if I have the proof that an agent is not acting properly I will remove him within 24 hours. Our aim is to provide the best support we can, within limits obviously.
