Thread: [\[OFFICIAL\] The Wolf Pack | Business Sector 5-Man Recruitment](#)

mvmt - October 7, 2018, 8:27 pm

For the formation of my sector within The Wolf Pack, I am hosting an initial 5-man recruitment to kickstart the group. From there, my sector will permanently be invite-only. I'll keep this thread as short and sweet as possible as I'm not a fan of the typical formal recruitment.

My sector was created in order to form a close-knit group of real business owners who can share their resources, network, skills/experience, etc. with each other within the group - people who are experts of their craft. This means I am not looking for users with very small businesses/startups or people who are simply "wannapreneurs." I am only looking to bring in established business owners with real income, whether it be an online business / brick-and-mortar / whatever it may be.

I'm not looking for inexperienced users not because I'm an arrogant asshole, but because the goal of this sector can only be accomplished by those who 100% know what they are doing and have achieved success. As stated earlier, the goal is to have a very close-knit group of people who can work together, help each other grow, share resources, etc. People outside the group can expect to see information being shared throughout the forum in order to help out those who may need it. I'd really like a variety of people within the group, such as having people in E-Commerce, real estate, tech industry, etc.

The Recruitment Process

I don't have a formal application or any of that other bullshit, if you feel that you should be a part of this exclusive group then post here with your story and your experience. If you don't want to publicly share what you do, shoot me a PM and we'll keep it between us. Be prepared to back up any claims you may make, I don't have time for people trying to fake their way in. If you need more insight on myself and what I do and what makes me "qualified", feel free to ask and I will share as well.

I am Xangu I am from the netherlands and I am 21 year's young.

I own a company in real life but its physical.

Its an electronics repair company.

We repair Phone's, Tablet's, Computer's etc.

We started as a 2 man team me and my best friend and we are still a 2 man team.

Lately I have been doing alot of research on Shopify + Clickfunnels and I had a couple of succesfull businesses niche based.

I can write detailed guide's, information and resource posts.

I would be happy to take a spot and learn people things about starting for yourself in real life.

Also I can help people in the part of Shopify + Clickfunnels.

In my part-time I am a c# Developer that makes all kind's of programs, mostly crackers to monetize some things.

Thank you for reading my application and if there is more you would like to know about me, feel free to send me a PM.

Would love to hear back from you.

Kind Regards,
Xangu.

Thanks to everyone for the kind words.

I honestly don't expect many applications because of the nature of the recruitment - if you don't hear from me, it likely means you are denied.
