Sorry guys no vouch copy (:

If you're that afraid, I can always go first since I have access to the owner account and can shut down your RDP anytime in case you didn't pay me. I have sold a few and some customer did ask me to go first and I did. All went fine (:

Kold Flow - October 28, 2018, 10:28 am

Bought the RDP from the OP. Everything went smooth, will see how long the RDP lasts, but overall satisfied with the support he has given me.

Looking forward for future business.

and do you accept eth?Only BTC. RDP is cracked RDP hence I don't know exactly how long it will last. I'll provide a week warranty. I only use One RDP for one account, this way it usually takes a long time before the RDP get shut if the owner didn't realize.
