Quote:How To Increase Traffic.? Do your own research on each and every topic i listed below...

OFF PAGE SEO Social Bookmarking
Creating Shareable Content Social Media Engagement
Guest Posts Influencer Outreach
Contribute as Guest Author Press releases
Classified ads Article Submission
Directory Submission Video Submission
Image Submission Document Sharing
Infographics Submission Forum Posting
Q&A Websites Guest Blogging
PBNs

ON PAGE SEO Sitemap
Interlinking Broken links
robot.txt Make sure your website is fully responsive
Website speed optimization
* Unique, High quality and SEO Optimized content
What is SEO Optimize content?
a) Page titles (H1 header and heading tags)
b) Permalink
c) Keyword density
d) Meta tags/descriptions
e) Images optimization (compressed them)
f) Internal & external linking
g) URL structure
h) Word count per post

Hope that helps, cheers.[/b]

MR. MORNINGsTAR - October 8, 2018, 4:13 pm

Are you looking for illegal ways to boost your page visits or ?

I would not recommend using any fake views or what so ever. You can invest in advertising, that's

the best way to drive traffic.

Thank you very much, iwearsarcasm!! This is a very helpful outline for someone like me who is independently increasing traffic of their website!!

UrbanWarfare - October 10, 2018, 2:25 am

Use paid advertising if you want instant traffic. At the same time work on your seo for long term organic traffic

Frankpal - October 11, 2018, 5:29 am

The best way is to build links on the niche sites.

traffic and ranking will come thru time and hard work!

saams - June 2, 2019, 8:41 pm

it will take time to get organic traffic put some useful content on your site and keywords you use carefully for better seo

cstpl123 - August 16, 2019, 10:33 pm

The answer which is given by this user is very informative and brief. DarkCod3r Thanks for your answer.

I want to just add few words for the question.

In this off-page and on-page procedures, you need to do more research on it. Always keep learning the updates from google. Read more article on all these related topics by that you will increase your knowledge on which and how it will work and you have plan your self, think differently o get more links.

Always remember Content is the King, Learn and know how to impress your customer through content. Do a survey or research what they are expecting from your site and what they need always.

Share your content in high-quality Domain Authority sites. High-quality backlinks give more traffic to your website.

Link Building is very important for your website. Use those Off-page techniques which are mention in the brief given post where I mentioned the name always to get more high DA backlinks for your website.

As coming to On-Page SEO make sure to cover your keywords in the meta description and meta keywords and content as well. Optimize your site through give Alt tags for your images and use headers H1, H2, H3.

Coming to technical do research and learn about Google Analytics, Google Console. Take some bits of advice in Forums do participate in that one, ask questions and answer to the questions.

Make to have Google My Business signed in. What I have n idea about it, I have shared with you, if I miss anything you can also give suggestions for me.

Patience is more important in this field, you need to wait for better results. But remember the fruits very taste and give energy to your career :-)

Thanks.
