Scammed by arkks with satoshis worth 15 usd. Promised to send me the satoshis on 25th September, but still waiting. I can prove the information with multiple screenshots.

He has 2 different skype accounts: rubydacherrey and arkks. Do not trade with some random guy anywhere, never.

I assume the contract is <https://hackforums.net/contracts.php?action=view&cid=10161> you have to give the contract URL and screenshots or else it's not valid.

JTMBoss - October 7, 2018, 9:12 am

should post the screenshots,details,and link to the contract or else it will be marked invalid

Looking at other disputes, you really should add some kind of proof shouldn't you?

I am sorry for you loss in any case.

masterxy - October 8, 2018, 7:21 am

So what is the point of contracts, for shitty scams?

Strayaa - October 8, 2018, 7:24 am

I'd recommend next time you trade with someone more trusted like Rotely

Sorry for your loss OP, hope it gets resolved

Why have you not marked the Contract as disputed?

Quote: So what is the point of contracts, for shitty scams?

The point is so you can have a visible dispute with as much proof of the deal as possible. You haven't marked the Contract as disputed which would alert other members and possibly might interrupt his future business..

Don't be a fucking prick about it.

Now I see, thought about something else. Thanks anyways

masterxy - October 17, 2018, 11:14 am

Already did it as you can see or what do you mean?

I don't have a belief that I can get any refund., only got banned by forum moderator for 10 days. No hard feelings!

Never I go firs anymore. This forum is full of scammers, sorry for my disappointment.

Nah you haven't added neither the contract link nor the DMs screenshots in the thread's original post.

masterxy - November 1, 2018, 9:09 am

Thanks for trying to help, but I don't care anymore.
