Thread: [PENTESTER VACANCY \[Netherlands\]](#)

websec - October 8, 2018, 3:43 pm

FYI: recruiting phase has started but company location will be opened in Q1 2019

I-GANK-I - October 8, 2018, 3:53 pm

Nice, good to see something that might actually have a good impact on someones career.
i will share this thread with a few people i know.

I understand somehow how you are advertising this here, but since you have a partnership/worked with the state it's also kinda fishy..

WebSEC is willing to help hackers who want to make the next step (turn ethical).

Likewise we are not looking for BH hackers unless they want to make these changes.

We are not a government agency, WebSEC just performs penetration tests for them from time to time and submits vulnerabilities to their Responsible Disclosure program ?
