Loving Horizon 4 and the moment but salivating over the release of red dead redemption 2. There's a lot of good stuff on the way

Hello.v4.0 - October 20, 2018, 5:06 am

Was off the mark by a month, but fuck it, going to say Xenoblade Chronicles 2. I can't think of a single game that released in 2018 that I have played yet. I'll just preemptively say Katamari Damacy Reroll or Super Smash Bros, since I love both series and besides RDR2 are the only new games I plan on getting this year.

It's been League of Legends for the past two years followed by Csgo. I'm a competitive player so yea...

Without any doubt Red Dead Redeption 2 will be the best game of this year

I'd probably blame that on price (most people wont pay \$30 for a 13 year old game) and not as many people are nostalgic for AoE 3 since it's kind of in between new and retro.

AoE 2 HD on the other hand:

FIFA19, mind you there's no debate on this.

Jaatinen - October 21, 2018, 4:57 am

League of Legends and Oldschool Runescape all year. FML. Still not even diamond / 100m bank ?

Yeah unfortunately, I wish they decrease the prices then many more players can play it imo. I'm excited to release of AOE IV, hope many player will be

Fortnite and League of legends. Also a bit of OSRS here and there. Love the competitiveness of Fortnite and league but there is just something about osrs makes it so fun.

Sciota - October 23, 2018, 11:27 am
