Your thread design looks very clean, but I would advice you to work on the header of the design so it has a logo or something to grad the attention of the viewer to be interested to explore more of your

work in the thread.

Make some more designs, just random. Take part in contests here in HF and put those up here as samples.

Your Buddy - March 7, 2019, 2:04 pm

Just completed an order with real and I am extremely happy with the results.

This guy has the patience of a saint and did not stop working on my order until I was 100% satisfied with everything.

The quality of his work is also fantastic and I highly recommend anyone considering buying some graphics work to give him a try.

Huge vouch for this user, I payed his competitor "Motusora" a decent amount for a single design and it was some of the worst work i've ever seen.

I then decided to order off him, and received 2 absolutely stunning designs. Will definitely use him over anyone else here on HF.

Hi there, I would check your language a bit. It seems that some of the copy isn't written up to the standard that most people would like in a business. Not trying to be offensive, but advertising in a language that isn't perfect is less than formidable. Contact me if you need copywriting.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
