Earnings Proof From July 1st to October 12th 2018 :

Description : This is not kind of niche sold in Shopify eBooks around HackForums, actually I don't think anyone is doing this method from HackForums. The set up will take you no more than 30 minutes, you are required to have at least 5\$ a day budget to run the Facebook Ad. The item sold is physical which means you'll be dropshipping through Oberlo. Niche we use is not so widely known nor sold by more than couple people (literally), yet it's something attractive and will bring in profits with ease from basically any audience regardless of their age/gender. Profit per sale can range from 20\$-30\$, you'll be using Oberlo hence the whole system is automated and requires very little work after set up.

Frequently Asked Questions :

Q. Are there any investments required?

A. Yes, you are required to invest at least 5\$ a day to run Facebook ads.

Q. Do I need niche?

A. No, I will give you niche and entire set up needed in order to make money from the method.

Q. Will you help me set up Facebook Ad?

A. Yes, step by step from start to finish. You dont need prior knowledge nor skills.

Q. I just started Shopify can I use this?

A. Yes you can, I have laid everything down step-by-step so you should not have any issues. I am also providing support so in case you're stuck or just need double-check you're more than welcome to contact me.

Q. Can it get saturated?

A. Never, the audience for this niche is so damn huge that it can never run dry. Additionally I will limit sales to 20 copies just for the sake of keeping it somewhat private.

Q. Is this in any way against Shopify ToS?

A. Absolutely not, this is legit.

Q. What is the time needed to execute the method and see money?

A. Set up takes less than 30 minutes. You can see the earnings as soon as your FB Ad is live or within 48h whatever comes first.

Q. Can this be done absolutely anywhere in the world?

A. This method will work anywhere in the world. All you need is an internet connection.

Q. How much money can be made?

A. I usually make 60\$-70\$ a day. You can definately scale it up and I'll show you how.

Q. Do you offer refunds?

A. Yes, for 3 weeks. If by any means you cant replicate simple steps, I will personally make sure to set you up (we will arrange a meeting on Skype or any other communication app you prefer).

Q. What's the difference between two packages?

A. Basic package gives you basic support, if I have a top package customer needing my assistance you will be put on hold. Also, top package customers are entitled to mentoring sessions as well. I will provide you support rest assured regardless of the package, but in an event of me being busy with another customer (top package customer) you will unfortunately have to wait/arrange different time. I have to be honest, I genuinely doubt you will need support since this is dead simple but you are more than welcome to purchase it in case you need extra guidance.

Terms of Service :

Spoiler ([Click to View](#)) You understand I have a life too, most you'll wait for a reply is 10-30 minutes unless I'm sleeping.

You understand you cant expect 24/7 support unless you purchased top package, same applies to mentoring sessions.

You agree to respect me and treat me as equal as I treat you as my customer.

You agree not to behave like a redneck, single insult or a threat towards me as a seller will result in termination of our contract. No refund, support or further communication will occur in such event. No exceptions.

You understand I will deny you both support & refund if I find out you're lying or withholding the through about the process when asked.

You agree not to use the sales thread for support (duh?), you will receive all contact details immediately after the purchase to your Email.

I can see what you were trying to do but it's not the case here, this niche does not require anything special. You're using Oberlo hence you simply import the product I tell you to, run the ad per my instructions and keep the profit from each sale. You dont need special templates, themes etc. Your store will essentially only get traffic from Facebook, so no SEO is needed either which makes this ultra easy to do.

As with every product I sold, the PDF is there just for the sake of "getting something in return for the money you spent". I usually talk to my customers and we go through things live as it happens.

Currently replying to a couple of messages so there might be a delay. Thank you.

I purchased the \$25 Basic Package to read over it. I am pretty experienced with Shopify already and I run a couple of successful stores but I must say this is a niche that I never thought of and definitely has good potential. The guide is not very long and will teach you how to create a simple store and how to set up Facebook ads. If you are new to shopify or even looking to add more niche products to your shop I'd say this guide is well worth the \$50.

Overall Rating - 4 out of 5 stars

I am going to try this niche on one of my "general product" stores. If it converts I'll give this guide 5 stars.

Hi sonex,

Which Oberlo pack recommend to use?

As Starter(free) has only 50 orders p/month, so may we have to invest more than \$5 daily on FBAds.

pd. Im almost new with Shopify, i will not have any problem setting up everything?

In case it makes difference, i will choose Full Package.

Thanks ?

Hi there, you can eventually buy the 29\$/month plan but it's not required until you actually start making money, you can then re-invest more and more. If you follow my steps, pricing etc. You will make around 1000\$/month profit from initial 50 orders which are free on Oberlo so you should not have issues paying extra 29\$ if you want to scale up.

In all honesty it's dead simple but then again I also offer package (75\$ one) where you essentially pay an extra so whenever you need me to be online to check it for you or whatever else, you're more than welcome to ask. You get the same treatment with basic package as well but there might be delays if I'm too busy with other customers.

Greetings to Everyone,

WITCHER'S REVIEW/VOUCH -

This is not my final review or verdict of what's being sold here. This is more of a precursor to that as I'm still taking my time in setting it up. Which brings us to why I am writing this for all of you.

Method: I'm not going to rate anything as of now. Just give you a brief rundown of what I think. So as of now, I think this method is rock- solid in terms of telling you which 'Niche' you will be working on and how to go on from that.

Difficulty: Seeing I have prior experience in Shopify, I'll be doing this a bit differently implementing many of my own twists into it but for someone who is just starting out. He has it all detailed with pictures and everything and trust me, most of it is self-explanatory. What depends right here is how you want to go about doing this.

Seller Communication: Seeing I have paid for the 'Full' version of it. He has been helpful, co-operative, friendly, enlightening and he was there when I needed him. What more could you want?

Final Precursor Verdict: This is a must-have for anyone who is just starting out with Dropshipping as it will give you the whole basic rundown of it or for someone who already knows the ropes of Dropshipping. This guy has laid down the foundation which is the main thing and the hardest to find when you are doing it alone and on your own. He has found you a very profitable and an untapped Niche. How you go about utilizing it to make your own mark is something you have to be creative about. Not everything in life can be spoon-fed to you. And always remember, to be successful in any business. You have to innovate or do something better than what is already there. Other than that, all I can say is - this can and will make you money.

Just thought I'd leave this preview vouch for everyone to go through. A must-have for sure.

Like you said I provide untapped and unsaturated niche, give you the foundation of success with this particular niche and help you make those first hundreds but you should never stop grinding. Why make 50\$ a day if you can make 100\$? By the time you start making 50\$ a day, you will have enough knowledge to scale it up and you should most definitely go for it! Once again thank you for your feedback and you truly amazed me with the way you think, have a good one buddy! Cheers!

Completely understandable mate, I know the feeling cause I've had plenty of people complain about the same. I can guarantee you that you've never seen/used this niche cause none so far out of 17 customers had any clue about it and some actually had past experience with Shopify just like you. There are couple of reviews throughout the thread but as far as earnings goes Facebook needs to approve your ad if it's your first time hence some had delays during the weekend. I'm certain proofs will come and I'm more than welcome to keep the thread open but obviously I'll have to the remove the purchase link once the stock is sold out, currently I only have 3 more copies for sale. Cheers and if we dont end up working together this time, hopefully we'll make it next time I decide to release something alike :) Have a good day.

(Oct 15, 2018 12:29 PM)oaan Wrote: [\[CITE\]](#) The 60\$ per day you talk about are net profit (without product and ad cost) ?

I'll put it in a more simple way for everyone to understand who arent familiar with (net, gross profits). Basically that's the amount of money you get to keep for yourself after deducting the price of an item + ad. The cost of an ad is 5\$ a day and the item price ranges from 3\$ to 6\$. It is scalable to a certain degree but afterwards you may need to put some more work into it to make it a "brand" hence go for higher earnings. It's easy to scale when you have the initial head start. I'll show you how to get consistent income and then, only then we can talk about scaling. As always I'm more than happy to help when the time comes! Cheers.

I would more like a market tailored to something I think fits me best since I am newer to ecommerce and would make it much easier for me to sell .

If you're new then this is perfect for you. I will give you access to untapped and unsaturated niche and show you how to set it up, I will also leave you room for improvement so you can eventually scale this up but for a start you dont need to choose anything nor think about anything else other than following my steps. Cheers and thank you for your interest.

Completely understandable mate, I know the feeling cause I've had plenty of people complain about the same. I can guarantee you that you've never seen/used this niche cause none so far out of 17

customers had any clue about it and some actually had past experience with Shopify just like you. There are couple of reviews throughout the thread but as far as earnings goes Facebook needs to approve your ad if it's your first time hence some had delays during the weekend. I'm certain proofs will come and I'm more than welcome to keep the thread open but obviously I'll have to remove the purchase link once the stock is sold out, currently I only have 3 more copies for sale. Cheers and if we dont end up working together this time, hopefully we'll make it next time I decide to release something alike :) Have a good day.

I'll put it in a more simple way for everyone to understand who arent familiar with (net, gross profits). Basically that's the amount of money you get to keep for yourself after deducting the price of an item + ad. The cost of an ad is 5\$ a day and the item price ranges from 3\$ to 6\$. It is scalable to a certain degree but afterwards you may need to put some more work into it to make it a "brand" hence go for higher earnings. It's easy to scale when you have the initial head start. I'll show you how to get consistent income and then, only then we can talk about scaling. As always I'm more than happy to help when the time comes! Cheers.

Delivered, let me know in case you need support. Thank you!

I've explained it in a more simple way above. Cheers!

alright, i'm buying it tomorrow afternoon, in 15 hours.

And you should also add the monthly shopify plan in the 'investment' needed

I'd hate to break it down for you mate but I'm not sure if the remaining 2 copies will hold for another 15 hours though. If you dont get in on time I'm sorry.

Shopify is free for first 14 days, that's plenty of time to make money from the method and then pay for the monthly plan. In an essence no investment is needed other than funds to start running ad at 5\$ a day. Cheers!

well i think i was able to buy it eventually :)

As of now i can say that 50% of the ebook is for complete beginners, so if you're not one of them you'll skip a lot of pages, but i'm pretty sure the concept behind the method is something truly unsaturated and will most probably work.

Will update in a few days with results and more in depth review :)

I am new to shopify/ecommerce, but to specify more I know about marketing already. Im not doubting your method the least bit I just think me having knowledge on whatever it is would ease me into ecommerce because itd be 1 less thing I have to worry about.

Like I've said there is nothing to worry about. I cover the entire process step by step so even if you have zero knowledge/knowledge it wouldnt make much of a difference though.

The way I do it and the niche I use is barely known which gives you a head start and makes the entire process a lot easier. Cheers and thank you for your interest!

Just set up my store, will update earnings in a few days with this method but I will say this, the price of the product is less than how much I would have payed to even know the general niche I've been given, ingenious.
