Rep4Rep threads aren't allowed. Also, begging for rep in freebies section isn't allowed either.

How about rep exchanges? I see some threads on that

If you're offering money, bytes or something else in exchange for rep, that should be fine.

Edit: Again, not in freebies section!

It's crazy how many threads asking this same question get posted

there is no such thing as "rep" anymore only popularity and market rating and manipulating market rating is not allowed. Popularity means nothing
