Thread: [SSH Brute Force Scanner \(BSSH\)](#)

bssh - October 12, 2018, 11:08 am

Hello,

I am selling SSH Bruteforce (BSSH)

BSSHv2.5.5b is a great tool for scanning ssh2 connections by providing a list of IPs and passwords. It is fast, reliable and easy to use. It is written in C++, therefore it is compatible on a large scale of unix systems, both 32 and 64 bits.

Compatible on 32 and 64 bit sistem on a various systems

Fast and reliable

Easy to use

Hide process

Making differance between linux sistems and NON-BASH systems

Detects honeypots

If an Linux system is encounters, retrives RAM and CPU data

Checks for updates before start

Multi port scanning

And more details via PM or Jabber

Price: \$150

Contact: bssh@exploit.im or PM
