Thread: [Buying 190 individual \\$10 Steam Gift Cards for 190 Steam Accs.](#)

**Money-** - October 12, 2018, 2:57 pm

I got 190 steam accounts to remove the limitation.  
So yeah I'll buy 190 individual \$5 steam cards. Offer me your rates.

I'll pay in Paypal. If you need in BTC , you will need to wait for me to exchange it though.

Edit: Make sure that steam gift card is able to work world wide. I don't know if it will work if I used VPN.

I am not from US but I need these accounts verified with \$5 since it will auto convert to my local currency's amount.

I am not going first , unless you are highly trusted. Middle-man is welcomed.

( 7/1/2019 ) Edit : I am looking for \$10 gift cards now. Buying them for \$5 each since no one has \$5 steam gift cards.

I'll start a contract once an agreement is reached.

your best bet would probably be just to use paypal to add 5\$ to each account, Then you can use the 5\$ to buy 2 csgo keys and sell them for 2\$ each essentially paying 1\$ per account so it would cost you 15\$ in total. As i assume you are just doing it to remove the friend restriction etc.

Yeah I thought of that for TF2 keys. But currently these accounts are still new , I'll still need to wait for 15 days etc. I rather just get \$5 steam card for \$3.

Well if no one wants to sell , guess I'll do it that way then.

atleast that way you dont have to worry about any of the codes not working or etc, things that will most likely happen and end up in losing more than you would have liked.

Well I'll see first. Would you willing to buy csgo or tf2 keys from me?

yea i would buy them off you once they became tradable.

Alright , I'll hook you up. If I managed to verify these accounts that way. Currently these accounts can't even access the market.

So yeah gona wait a long time to contact ya.

Edit: Anyways I have someone from another forum willing to do \$3 for each card with his method. But guy said wasn't worth the time for 15 accounts. Ah , what a turn down.

I believe there is another way to buy the keys that doesn't use the community market. I know in game on csgo you can buy them directly so there may be a direct link or something to that .

CSGO keys in my country's currency is much more expensive than TF2 keys though. I can get TF2 keys much more cheaper if you want?

You mean with the new steam digital card on steam? I heard that won't work under their T.O.S. You must redeem gift card codes or use your own credit card on the 15 accounts. But I heard after like 5 accounts your credit card will be on cold down or on hold.
